

History Summer Work

- **All rising 7th grade students are expected to complete the history assignment** posted in Google Classroom.
- The assignment is a series of guided activities on Google Slides connected to world **geography, map skills, and human-environment interaction.**
- Important geography skills and concepts will be taught throughout the school year, but students who complete this assignment will **build a strong foundation for exploring the people, places, and historical topics they will study in 7th grade.**
