Re: K-2 Gun Safety Lesson

As part of your child's education, we partner with the School Resource Officers (SROs). This year, Gun Safety for younger students has been identified as a need.

The elementary School Resources Officers have requested to complete one 20-30 minute lesson with all kindergarten, 1st grade and 2nd grade students to help ensure they are safe if they encounter a gun and understand to not play with it.

If you prefer your child to "opt out" of the gun safety lesson, we can arrange for your student to not participate in the lesson.

Please note that this form, a link to the NRA Eddie the Eagle program will be available at Derbyschools.org for parents to preview if you'd like to preview the building. .

_____I DO NOT give permission for my child to participate in one k-2 Gun Safety lesson.

Child's Name _____ Teacher _____

Parent Signature _____ Date _____

If you wish your child not to view the materials, please return to the office at your building.
