

My Ride K-12: Enable Notifications (iOS)

How to enable My Ride K-12 notifications

1. After downloading the app from the app store, launch the My Ride K-12 application.
2. Upon launching My Ride K-12, you will receive a prompt requesting you to allow notifications. Select **"Allow"**
3. Register or Log into the application using your credentials.
4. Select the top left hamburger menu to open the menu slide out and select **"settings"**

5. Locate the "Navigation Settings" section and **enable** the specific notifications you would like to receive.

Note: These notification options may vary depending on which options your district has enabled.

Notification Settings

Pick what type of notifications you would like to receive. Click any option below to toggle.

- ☒ Enable Student Scans
- ☒ Enable ETA Early/Late
- ☒ Enable ETA Reminders

Save Notification Preferences

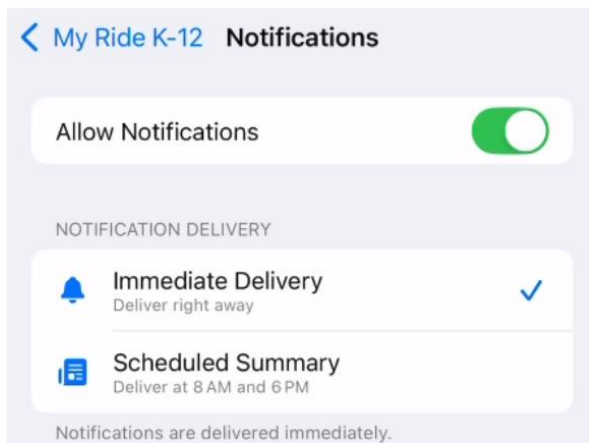

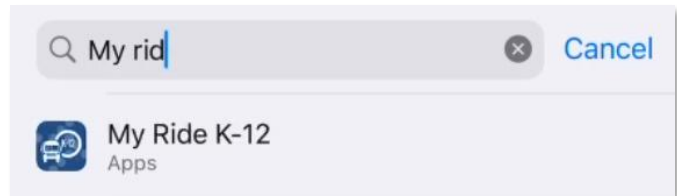

If you have already downloaded the app and need instructions on how to enable notifications on your device, see reverse side.

How to enable My Ride K-12 notifications (through settings)

1. If you have already installed My Ride K-12 and did not allow notifications, navigate to device settings. This is usually represented by a gear icon labeled “**settings**”.

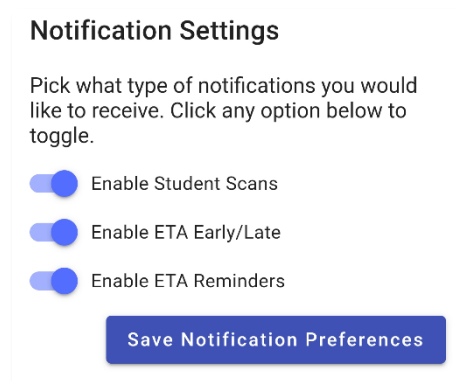

2. Begin by searching for “**My Ride K-12**”.

3. Select “My Ride K-12” and ensure you have “**Allow notifications**” enabled. Your device settings may vary depending on version so be sure to look for any options related to “Notifications”. We also recommend selecting “**Immediate Delivery**” so that you are notified as soon as possible.

4. Once enabled, open the My Ride K-12 application, select the hamburger menu button and select “**settings**”
5. Locate the “Navigation Settings” section and **enable** the specific notifications you would like to receive.

Note: These notification options may vary depending on which options your district has enabled.
