[Anush] In terms of didactics, we have, a protected afternoon every Thursday where we engage in discussions about various topics. So each Thursday we'll have a grand rounds. So it'll be a one- one hour lecture, where do we go through a different topic each week.	A dark complected man, with close cropped dark hair is wearing a black zip up jacket with the department logo on the right chest. He is standing beside a curved wall with a large purple and gold L S U Health Shreveport logo across it. Text: Anush Vasikaran, M D Gastroenterology Program Graduate
So for example PSC, colon cancer screening, things like that. We also have other topics after that. And during those sessions we'll be discussing guidelines for different G.I. cases. We'll be discussing imaging review. And we'll also sometimes be discussing interesting cases that we have in our hospital so that there's a collegiality in the decision making process when it comes to things that it's not just cut and dry. During the first 30 minutes of every didactic session, we go through around ten D.D.S.C.P. questions. And this will make sure that we're done with our question bank by the time we get to our G.T.E., which is our training exam, so that we are adequately prepared for our boards when the time comes to take them.
