Dear Parents/Guardians of students entering Discrete Math in September 2026,

This summer your child will have the opportunity to prevent summer learning loss and to build a strong foundation in real-world mathematical applications grounded in Financial Literacy. He or she will also have the opportunity to earn up to ten extra credit points on the first mathematics test of the 2026-2027 school year.

Note: The assignment is attached to this letter. In order to receive credit, students must show ALL written work and submit it to their teacher by September 10, 2026.

Also, please do not wait until the end of summer to begin these skills.

A handwritten signature in black ink, appearing to read "Dawn Aiello".

Dawn Aiello
Director of Mathematics
