UNIVERSITY of WASHINGTON

SeaPrep

Join the SeaPrep Study!

All study activities can be done at home!

Why are we doing this study?

This study will help us understand:

- How respiratory infections spread
- How well immunizations (vaccines) protect against infection and getting sick
- How the body responds after infection or vaccination

Who can join the study?

Children and adults of all ages living in King, Snohomish, or Pierce counties

What will I be asked to do if I join the study?

You may be asked to join one or both parts of the study:

Part A

- **Get up to $165 per year**
- Take short weekly surveys about your health for up to five years
- Do a research nasal swab when you report symptoms and a study-supplied rapid test if asked
- Give optional blood samples and **get up to an additional $80 per year**

Part B

- **Get up to $140 per confirmed respiratory illness**
- Take short daily surveys for two weeks
- Do a daily nasal swab for two weeks
- Give two optional blood samples

You will not be asked to get any vaccines to participate in this study

You can decline any part of the study.
