BOARD OF EDUCATION BUSINESS MEETING
Tuesday, May 12, 2026

NOTE TO CITIZENS IN ATTENDANCE

The Board of Education conducts Business and Executive Meetings.

Business Meetings are those at which the Board of Education acts on the vast majority of items under its jurisdiction. The meetings are open to the public and citizens are allowed to speak. The Board welcomes comments from citizens. It does, however, respectfully suggest that citizens attempt to resolve concerns by speaking directly to school administrators before bringing it to the Board. Individuals with a relevant interest in the function or duties of the Board are invited to speak a maximum of three (3) minutes on any one issue. The Board has allocated a total of twenty (20) minutes for public comments. You are required to give your name and address before speaking.

Executive Meetings are conducted when the Board of Education must review and discuss confidential matters. By illustration, pending legal cases, personnel matters, and collective bargaining proposals are appropriate reasons for the Board to hold an Executive Session. These meetings are not open to the public.

Mission Statement

The Mission of the Pennsauken Public School District is to provide a safe, challenging, and enriching learning environment for all students that leads to academic success and the development of personal responsibility and self-directed lifelong learning needed to become contributing members of a diverse, global society.

Any discussion held by the Board of Education that need not remain confidential will be made public. _____ A matter which, by express provision of Federal Law, State Statute or Rule of Court shall be rendered confidential or excluded from discussion in public. (Provision relied upon: _____)

_____ A matter in which the release of information would impair a right to receive funds from the federal government.

 X A matter the disclosure of which constitutes an unwarranted invasion of individual privacy such as any records, data, reports, recommendations, or other personal material of any educational, training, social service, medical, health, custodial, child protection, rehabilitation, legal defense, welfare, housing, relocation, insurance and similar program or institution operated by a public body pertaining to any specific individual admitted to or served by such institution or program, including but not limited to information relative to the individual's personal and family circumstances, and any material pertaining to admission, discharge, treatment, progress or condition of any individual, unless the

(If pending or anticipated litigation, the matter is: _____)

X A matter involving the employment, appointment, termination of employment, terms and conditions of employment, evaluation of the performance, promotion or disciplining of any specific prospective public officer or employee or current public officer or employee employed or appointed by the public body, unless all individual employees or appointees whose rights could be adversely affected request in writing that such matter or matters be discussed at a public meeting. The nature of discussion is employment, renewals, non-renewals and the employee(s) involved has been provided the required notice and has not requested the discussion be held in open session.

_____ Any deliberation of a public body occurring after a public hearing that may result in the imposition of a specific civil penalty upon the responding party or the suspension or loss of a license or permit belonging to the responding party as a result of an act of omission for which the responding party bears responsibility.

AND BE IT FURTHER RESOLVED that the Board of Education hereby declares that its discussion of the aforementioned subject(s) may be made public at a time when the Board Attorney advises the Board of Education that the disclosure of the discussion will not detrimentally affect any right, interest or duty of the School District or any other entity with respect to said discussion; and

BE IT FURTHER RESOLVED that the Board of Education, for the aforementioned reasons, hereby declares that the public is excluded from the portion of the meeting during which the above discussion shall take place and hereby directs the Board Secretary to take the appropriate action to effectuate the terms of this resolution.

Future committee topics include the review of policy alert 237 from Straus Esmay. Assigned different sections of the board policy norms to each committee member at the last meeting. PUBLIC COMMENT – ALL ITEMS

The Board of Education now welcomes the public to comment on the items which are on our agenda or any school matter of community interest. Community members should first try to resolve their concerns by speaking directly to school administrators before bringing those concerns to the Board. It may not always be possible or appropriate for the Board to directly answer questions during the public comment period. Each speaker is allotted a maximum of three (3) minutes to make their statement. No participant may speak more than once on the same topic until all others who wish to speak on that topic have been heard. You are required to give your name and address before speaking. Please keep your comments respectful and non-defamatory, and maintain the level of decorum appropriate for a public meeting where minors may be in the audience.

REPORT OF BOARD SOLICITOR

- **Mr. Li - Some new legislation has been introduced, among them are, Assembly Bill 5041, which would require that all students in grades 6-12 have a physical examination that would include a cardiac component. This is a change from the existing law which is only for students in grades 6-12 that are participating in sports. It is now expanded to all students in grades 6-12. Senate Bill 2962, would expand from teaching staff members only to now include educational support professionals who serve in the military up to 4 years of credit for purposes of determining seniority. Senate Bill 1767, will eliminate the use of the census based methodology in calculating special education funding and instead it will be calculated based on the actual number of special education students in the district. Senate Bill 4176, will allow districts to reject the numerically lowest responsible bidder for professional services up to 10% based on a number of different factors, including the most advantageous price and other factors the district believes are favorable. Senate Bill 4134, will require that a school district that is subject to a reduction in state school aid in the budget year shall receive the state school aid for the budget year in an amount equal to the aid received in the pre-budget year and that reduction won't be applied until the next year.**
