

Student Info: Medical Information

This submenu contains a variety of medically related fields such as health conditions, allergies, dates for exams such as school physical, health conditions, parent Medicaid consent, etc. Use the right scroll bar to scroll down to view all fields on this tab.

From the student **Demographics** page:

1. Access the sub-menu section on the left side of the screen.
2. Access the appropriate medical information tab:
 - a) Select **Medical** to view information such as health conditions, allergies, and physical status.

Parent Medicaid Consent

Indicates whether parental consent for Medicaid-related services has been obtained. This information is captured during enrollment or when a student has an IEP.

Parent Medicaid Consent Date	Parent Medicaid Consent Denied Date
Parent Medicaid Revocation Date	Medicaid Number

Health Conditions

This submenu contains student health condition records, medication indicators, and parent/guardian notes.

- Health conditions are entered based on information provided on the Student Emergency Information Form.
- Use the Tab key to navigate between fields. Information can be entered using dropdown menus, text fields, and calendar date fields.
- After selecting Save, a new row is automatically created to allow additional health condition entries, if needed.

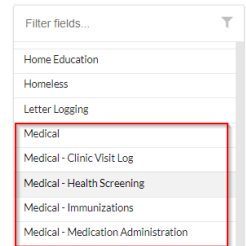

Student Info: Medical Information

Medical – Clinic Visit Log

Student visits to the school clinic are documented on this tab either by the school nurse or other designated individual. Specific service and codes reflecting actual services provided can be documented and the information in the fields can be pulled into various reports.

From the student **Demographics** page:

1. Access the sub-menu section on the left side of the screen.
2. Access the appropriate medical information tab:
 - a) Select **Medical – Clinic Visit Log** to view information such as health conditions, allergies, and physical status.

Reports

Reports can be generated to view this information for your school.

District Reports

To access district created reports:

1. Navigate to the Reports tab > District Reports > Medical.
2. Locate the report and click the green run button.

Reports housed here will include:

- Immunization Compliance Report
- Health Exam Status Non-Compliance Report
- Vision Screening and Eye Exam Report

The screenshot shows the FOCUS District Reports interface. The top navigation bar includes 'Reports' (1) and 'District Reports' (2). The left sidebar shows a tree view with 'Medical' highlighted (3). The main content area displays a table of reports with 'Export' and 'Run' buttons. The 'Run' button is highlighted (4).

Title	Description	Export/Run
Health Exam Status - Non-Compliant		Export Run
Immunization Compliance Report		Export Run
Immunization Compliance Report - District View		Export Run
Immunization Compliance Report - District View - Team		Export Run
Immunization Compliance Report - Team		Export Run

Advanced Reports – Published

To access district published advanced reports:

1. Navigate to the Reports tab.
2. Search for the report via the filter field
3. Select the report to generate.

Advanced Reports – Creating Your Own

For example, if creating a report to view students coded with a [2], also select Temporary Exemption Expiration Date.

The screenshot shows the FOCUS Reports interface. The 'Reports' tab is selected. A search filter 'med_' is entered. The 'My Reports' list shows various medical reports, including 'MED_7th Grade Immunization Compliance Report'.

Reports
med_
My Reports
MED_7th Grade Immunization Compliance Report
MED_FDOH Screening Demo File
MED_Health Conditions
MED_Health Screening Report
MED_Medicaid Consent Report - District Use
MED_Medicaid Consent Report - District Use (consent/enroll date comp)
MED_Medicaid Consent Report - School Use
MED_Temporary Medical Exemption (Code 2)

From the Advanced Report screen:

1. Select More Search Options > Student Fields > Medical-Immunizations > Immunization Status category.
2. Select available fields you would like to include in your report.
3. Click Run Report.
