Dear Nyack High School Students and Families,

It is my pleasure to share with you the *2026–2027 Program of Studies* for Nyack High School. This comprehensive guide represents our commitment to academic excellence, inclusivity, and student-centered learning. Within these pages, you will find detailed course descriptions, graduation requirements, elective offerings, and an overview of the academic pathways available to support each student's unique journey.

At Nyack High School, we believe that every student should have the opportunity to explore their passions, develop essential skills, and prepare for life beyond high school. Whether your interests are in the arts, STEM fields, humanities, world languages, or career and technical education, our program offers a diverse array of options designed to challenge and inspire.

We are especially proud of our expanding dual enrollment and Advanced Placement opportunities, which allow students to earn college credit while still in high school. Additionally, our AVID program, Project Lead the Way courses, and strong support structures reflect our ongoing commitment to equity, access, and the whole-child approach to education.

As you review the Program of Studies, I encourage students and families to thoughtfully consider all that Nyack High School has to offer. Please take advantage of the many resources available, including discussions with school counselors, teachers, and administrators. Your thoughtful course planning now will lay the foundation for a purposeful and fulfilling academic experience.

Thank you for your continued partnership in fostering a thriving learning community. Together, we will ensure that every student has the opportunity to find their path, pursue their goals, and achieve success.

Sincerely,

*Nicole Saieva*
