Mr. Riedel reported that the committee met during the May 12, 2026 Committee of the Whole meeting and the following informational items presented included a Monthly Financials Update presented by Dr. Cook. As of May 6, the District’s total fund balance was approximately \$66.8 million, representing just over 10 months of reserves, while operating funds totaled approximately \$63.1 million, representing just over 11 months of reserves. It was further noted that most revenue had already been received while approximately two months of expenditures remained. Dr. Cook projected that by the end of the fiscal year the District’s fund balance would be approximately 7.5 months

of reserves for all funds and just over 8 months for operating funds. Mr. Riedel noted that several budget areas were underspent, contributing positively to the District's financial position, and further noted that the District's budgeting practices were generally very accurate overall. The committee also discussed the FY27 District budget development process. Mr. Riedel stated that Dr. Norrell reviewed the District's use of a zero-based or "net zero" budgeting approach focused on offsetting new or enhanced programming costs through operational efficiencies elsewhere in the budget. It was reported that approximately \$1.6 million in efficiencies had been identified within the FY27 budget process to support new programming and staffing needs while maintaining fiscal responsibility. The committee also reviewed the planned purchase of 250 new PAC seats to replace existing seating in the Performing Arts Center. Although the purchase falls below the threshold requiring Board approval, Dr. Norrell and Mr. Patterson shared the information in the interest of transparency. The estimated cost of the seating purchase is slightly more than \$20,000. Lastly, the committee discussed liability insurance renewal planning. Dr. Dallacqua also presented information regarding the District’s Multi-Tiered System of Supports (MTSS) Needs assessment. She explained that the assessment was completed in four phases throughout the school year and included reviews of District documents and systems, staff self-assessments, stakeholder focus groups, and the development of findings and recommendations. The final information item discussed involved the possibility of participating in a student exchange program. It was noted that the District has maintained a longstanding practice of not participating in student exchange programs for more than 20 years, and at this time the Board does not plan to approve participation in such a program.

Mr. Legardy stated that Dr. Dallacqua would review several items that were not fully discussed during the Committee of the Whole meeting due to time constraints but are included as action items on the evening’s Board agenda. Dr. Dallacqua began by stating that she would provide a condensed presentation combining the three presentations originally scheduled for the Committee of the Whole meeting. Dr. Dallacqua began by presenting information regarding the District’s recent comprehensive Multi-Tiered System of Supports (MTSS) Needs assessment conducted to strengthen academic, behavioral, and social-emotional supports for students.
