

Hello All Souls Families!

For our second year of in-house after-school programming, we will be continuing on with our array of enrichment offerings! Our aim for this year is to create an even more robust set of classes for students to enjoy. Lunch Bunch and Fastbreak camps will also continue to be available for sign-up.

We are so excited to get going with another session of fun and exciting after-school options! Descriptions for classes are listed below. Please find the registration link [HERE!](#)

Registration is OPEN NOW and will be available until NOVEMBER 2nd! Sign-ups for after-school enrichment classes are first come, first serve. Please reach out to Mike Park (mpark@allsoulsschoolnyc.org) with any questions!

12:30-1:30PM classes are exclusively for half-day families

3:00-4:00PM classes are exclusively for full-day families

Fall 2026-27 Offerings:

Enrichment classes offered from 12:30PM-1:30PM

****Lunch Bunch from 12-12:30PM included****

Tuesday: Fastbreak Sports

Our partnership with Fastbreak continues! On Tuesdays, Fastbreak will be running private multi-sport classes from 12:30PM to 1:30PM for our half-day students. We will also continue to have both private and public camp classes to sign up for during school conference days and staff professional development days. Registration and communications regarding all Fastbreak classes will be handled by the Fastbreak team. Those signed up for Fastbreak must also be signed up for Lunch Bunch! Please reach out to Mike with any questions or concerns.

Wednesday: Jaymie Jenks (4B Teacher)

Our theater workshops will invite children on a fun and collaborative exploration of their imagination! Through storytelling, improvisation, and games, children will build skills in expressing ideas, encouraging others, and creative problem-solving. Theater is the perfect place to play and imagine possibilities together!

Thursday: Story Hour w/ Laura Savino (NIDO Teacher)

At Story Time, each week we will have a specific topic to focus on (ie What is the library? Or What happens in autumn?) and read stories about. These stories will guide us in learning more about our topic and making crafts that the kids will take home. Children will have the opportunity to not only explore the library but also find books they are compelled to. They will be able to take one book out of the library to take home and return the next week.

Enrichment classes offered from 3PM-4PM

Tuesday: Nature and Art w/ Monique & Alida (Atelierista & 2A Teacher)

Spark your child's creativity and curiosity with our Nature and Art after-school class! This hands-on program invites children to "bring the outdoors in." Through sensory exploration, guided observation, and playful crafting, children will discover the beauty of the natural world while developing fine motor abilities.

Tuesday: Dance/Creative Movement w/ Kristina Walton (Movement & NIDO Teacher)

This joyful and engaging class introduces young dancers to the magic of movement through storytelling, music, and creative play—all while building a foundation in dance technique. Students will develop coordination, balance, rhythm, and body awareness through age-appropriate exercises rooted in jazz, hip hop, and ballet. With an emphasis on musicality, proper technique, and essential classroom skills like taking turns and following directions, this class sets the stage for confident, lifelong learning in dance. Perfect for little ones ready to move, create, and express themselves in a fun, supportive environment!

Wednesday: Chess w/ Noah Wright (3B Teacher)

Simple to learn but a challenge to master! Students who sign up for this afterschool class will learn what the pieces are called, how they move, and how to set up a chess board. They will learn different strategies and tactics that will both engage their higher thinking skills and help them to think ahead to implement their gameplan. They'll also practice their social skills and etiquette as they learn the social conventions of how people play chess.

Wednesday: Theater w/ Jaymie Jenks (4B Teacher)

Our theater workshops will invite children on a fun and collaborative exploration of their imagination! Through storytelling, improvisation, and games, children will build skills in expressing ideas, encouraging others, and creative problem-solving. Theater is the perfect place to play and imagine possibilities together!

Thursday: Maker Workshop w/ Elizabeth & Monique (3A Teacher & Atelierista)

What makes a house a home? In this Maker Workshop, children will explore homes, shelters, bedrooms, nests, and birdhouses through hands-on multimedia art. Using a

variety of artistic materials and construction techniques, young makers will design and create imaginative spaces and shelters using open-ended materials. This workshop fosters planning and creating as children develop problem-solving skills, and an appreciation for the many places we call home.

Lunch Bunch

Offered to half-day students that enroll in the Tuesday 12:30PM-1:30PM Fastbreak classes as well as the half-day enrichment classes, Lunch Bunch is the place to be. Students that sign up will gather in the classroom after dismissal so that they can sit down, have lunch, and refuel their bodies for the fun and play Fastbreak is all about.

***Tips about Lunch:**

- No Nuts or Peanut Butter. We are a nut free school. We do not allow children to share food.
- Try not to send in too much food. We always envision our child as ravenous but when eating in a new place it can help children feel very proud if they finish all their lunch. That can be hard to do if there is too much food.
- Send in things your child likes to eat. Please don't send in things your child doesn't like to eat at home in the hopes that they will eat it at school, chances are they won't.
- Practice using the lunch box or lunch container system they are going to use. Try it out this weekend, even if you are home.
- Teachers are available to help organize things and be sure things are opened. We encourage good conversation at lunch tables and encourage children to eat "healthy things" first (i.e., the main part of their lunch and fruit/veg before a treat).
- We send home all uneaten food (unless something spills as well as half used things that cannot be contained, juice boxes, apple sauce cups, yogurt cups, etc.). This is a great way to gauge how much your child ate.
- We cannot refrigerate or heat things up, BUT ice packs and hot thermos containers work wonders!
