We are a leading provider of software and hardware that helps people and organizations find ways to be more successful, more efficient, more collaborative, and find more enjoyment in their work.

Newline continues to push the envelope of technology and has set the foundation to become the worldwide leader in interactive displays.

VIP+ Partners

Dr. Michael Liu

Algebra Zero Project Director
info@algebra0.com

Education2000 was founded in 1995 by “standing on the shoulders of the giants of the past 2,000 years.” We study what works, update it, and implement it to engage students and help them grow. Learning can be difficult sometimes, but it should never be painful. If you’re sick and tired of seeing many intelligent students fail Algebra 1 year after year, let’s work together and make a change. Practice alone can’t make perfect for math and algebra education. Building smart mental muscles requires much more than repeating the same dull practices used to grow physical muscles. Although those drill-and-kill exercises are still necessary, many students aren’t willing to put in enough effort unless we can help them understand and see why they are needed.

Most traditional purchased materials and free internet resources only focus on how to follow procedures and use formulas. To succeed in Algebra 1 and Algebra 2, most students need to start with Algebra 0. It’s a specifically designed program of supplemental and intervention materials for beginning algebra students. Traditional Algebra 1 materials mainly go through the superficial symbolic manipulations and hardly touch the inner workings of algebra. They never answer the century-old questions of “why do I need algebra?” or “when will I ever use it?” Algebra 0 is a fatigue-free approach to preparing students for Algebra 1 and 2, going beyond fixing all those issues.

Please email us at info@education2000.com to find out how you can get free Algebra 0 resources sponsored by the NDE.

Amplify's ELA, math, science, and assessment solutions are setting the standard for next-generation high-quality instructional materials and assessment. Grounded in cutting-edge research and brain science, our core and supplemental solutions inspire all students to think deeply, creatively, and for themselves. They also empower teachers to deliver rich, rigorous, and continuous learning experiences every day in any setting — at school, at home, or both. In addition, our formative assessment tools turn data into action with practical instructional support to help students at every skill level build a strong foundation in early reading and math.

Bluum is North America's largest learning catalyst, uniting educators with hand-picked technology solutions to improve learning and make it more accessible. At Bluum we Inspire positive growth with products and professional guidance that help educators and students no matter where they are.

KAT GANNON

Client Director
Serving K-12 for over 10 years

Magic happens when the right people and resources come together to create something greater than the sum of its parts. As North America's largest learning catalyst, Bluum is rooted in the belief that education is the single most achievable step toward a more positive and equitable tomorrow. We are driven by a single mission improving learning and making it more accessible. From the personalized support and services we provide to the hand-picked products that create exceptional learning environments, everything we touch, say or do empowers educators to make a difference. Learn how we are cultivating possibility at bluum.com.

CharacterStrong provides PreK–12 schools with an evidence-based, multi-tiered solution for teaching skills that improve school culture, safety, and student success. Already serving more than 11,000 schools worldwide, our programs deliver practical and engaging lessons across three tiers of support.

Tier 1 builds life skills and character through vertically aligned lessons, anti-bullying content, and policy-driven tools connected to mental health, substance abuse, and more. Tier 2 offers structured interventions focused on coping, relationships, and self management, with screening and progress monitoring tools. Tier 3 provides targeted interventions for anxiety, depression, trauma, and executive functioning.

Backed by research, CharacterStrong has been proven to improve student engagement, reduce absenteeism, and strengthen school safety while fostering the skills students need for lifelong well-being.

**Sarah Swallia | Educational
Sales
Consultant | NV & AZ**

Curriculum
Associates® | sswallia@cainc.com
C: 702-290-7577

Sarah, an Educational Sales Consultant for Curriculum Associates, is a Las Vegas Native and Nevada Educator. In her current role with Curriculum Associates, Sarah supports i-Ready, Toolbox, Ready Classroom Math, and Magnetic Reading implementations in NV and AZ's K-12 districts, charters, and private schools. In her previous role, Sarah traveled across the Southwestern states to deliver high energy professional development sessions that challenge both educator and leader audiences to leverage their focus on high impact strategies to deepen student success. Her passion for educational reform supports innovative and new instructional models that help learners of all ages achieve their highest potential, reach personal goals, and be positive role models and contributors to our global community.

Our Commitment to Advancing Equity for All Students

Curriculum Associates' mission is to make classrooms better places for teachers and students. To pursue this, we must actively support the development of equitable learning environments in which every student and educator—regardless of their cultural background, skin color, or zip code—can access the right tools and opportunities for success. Our commitment to equity provides a unique opportunity and responsibility to mitigate the effects of bias on the millions of learners and educators we serve.

We believe that equitable outcomes start with understanding each student's unique abilities and needs. With that information, educators can identify and provide the resources that students require to thrive academically. *i-Ready Assessment*, *i-Ready Learning*, and *i-Ready Partners* work together to support educators through this process:

1 Identify Assets and Needs

- Robust data from the *i-Ready Diagnostic* gives educators **asset-based insight into each student's can dos and next steps**.
- The Prerequisites report **reveals unfinished learning** in Mathematics, while the Tools for Scaffolding Comprehension **provide instructional guidance to scaffold students** toward grade-level proficiency in Reading.

2 Create a Custom Path to Proficiency

- Diagnostic data is used to create an **individualized, adjustable lesson path for each student** based on their Zone of Proximal Development and priority standards.

3 Set Ambitious, Attainable Goals

- Reports also **provide Typical and Stretch Growth goals** to ensure each student's expectations are oriented toward grade-level work, regardless of their starting point.

4 Provide Instruction That Engages Every Learner

- We have expanded our commitment to **new instruction that is Culturally and Linguistically Responsive**, so students who are Black, Indigenous, and People of Color feel increasingly affirmed, seen, valued, and respected by our materials.
- **Spanish-language content and strategic scaffolds** embedded within lessons support Spanish speakers in reaching their learning goals.

Education is at Google's core. Since our beginning, we've been driven by a mission to organize the world's information and make it universally accessible. For over a decade, Google for Education has partnered with educators globally, providing tailored tools that transform teaching and learning.

Our suite of tools is designed to empower every student and educator to achieve their full potential. Google Workspace for Education facilitates seamless collaboration. Chromebooks enable learning from anywhere. Gemini transforms education with innovative capabilities. Google Classroom and our LTI integrations with popular LMS like Canvas create engaging learning experiences.

Every day, billions of people use Google products to learn or discover something new—from Search, to YouTube, Gemini, Google Classroom, and more. We believe everyone deserves access to great learning experiences, regardless of location. Technology has broken down classroom walls, and we're dedicated to ensuring safer, secure, and equitable access to the best possible education environments.

Google for Education is committed to providing educational tools that are trusted by institutions, tailored for education, and always evolving. We empower educators and learners of all ages with the tools and skills they need to build the future they envision.

Jasa Todorovich
Founder/CEO

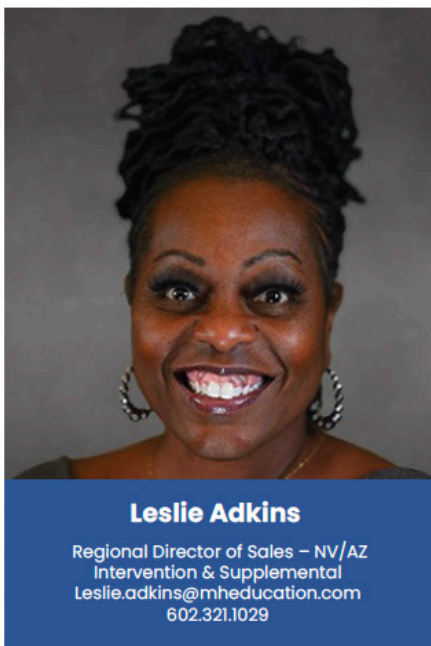

Lorsey AI is a K–12 learning platform designed to help schools make better instructional decisions using the data they already have. We work alongside existing systems such as assessment tools, curriculum platforms, and student information systems to bring all student learning signals into one place for teachers and administrators.

Our platform identifies patterns in student performance, engagement, and progress to surface clear, actionable insights. Teachers can quickly see which students are falling behind, which are ready to advance, and what specific skills need attention. Lorsey then recommends next steps, such as targeted small-group instruction, assignments aligned to standards, or parent communication reducing time spent on manual analysis and reporting.

For school leaders, Lorsey provides visibility across classrooms and grade levels, helping identify trends early and allocate resources more effectively. The platform supports MTSS frameworks, intervention planning, and progress monitoring, making it easier to align instruction with district goals and state standards.

Our goal is simple: help educators spend less time piecing together data and more time supporting students. By turning fragmented information into clear next steps, Lorsey helps improve outcomes while reducing teacher workload.

Lorsey is currently piloting with partner schools and expanding into public school systems focused on measurable academic growth and operational efficiency.

McGraw Hill is a global education and publishing company that provides a wide range of educational materials, digital platforms, and services. Founded in 1888, it is recognized for producing textbooks, learning resources, and assessment tools for schools, universities, and professional learners. The company is known for its content in various disciplines such as mathematics, science, business, and social studies.

In addition to traditional print textbooks, McGraw Hill has embraced digital innovation, offering online learning platforms, adaptive learning technologies, and other digital tools that support personalized learning experiences. Their services cater to K-12, higher education, and corporate training markets.

McGraw Hill is committed to improving educational outcomes by providing high-quality, evidence-based content and leveraging technology to enhance teaching and learning. The company's products are designed to help learners achieve academic success and provide educators with the resources they need to effectively teach.

Over the years, McGraw Hill has expanded through acquisitions and partnerships, continuing to evolve with the changing landscape of education and technology. Its focus on innovation and accessibility has made it a leading player in the global education industry.

Erin Walker

CEO
Next Gen Math, LLC
(760) 220-5884

NextGenMath.com is committed to empowering educators and students to excel in mathematics. Our platform offers intuitive real-time data and dynamic content, meticulously organized to support students in meeting and exceeding math standards.

Educators utilize our platform for assessments, curriculum supplementation, targeted intervention, and summer school enhancement, while districts benefit from time and cost savings with customizable assessments aligned to Common Core State Standards.

Our dynamic platform facilitates real-time response and intervention, ensuring immediate actionability of student data. Site administrators become instructional leaders, leveraging data to monitor student progress effectively. Principals set high expectations with low stress on teachers, thanks to our platform's automated grouping and content assignment features.

For teachers, NextGenMath.com offers progression assignments, procedural fluency practice, and real-time progress monitoring to address learning gaps and support student achievement. Students love the instant access to reteach content, videos, and engaging math activities, fostering independent learning and growth.

In essence, NextGenMath.com is a comprehensive solution aligned with Common Core Standards, providing educators with the tools they need to support student success seamlessly. From customizable assessments to intuitive features designed for busy educators, we empower educators and students alike to thrive in mathematics.

Parsec Education (parseceducation.com) is an educational data analytics company with a mission to equip schools with the tools and expert guidance needed to make data actionable, save time, and drive real improvements in student outcomes. We were founded after observing educational systems that were flooded with large amounts of data, but did not have the internal capacity to make them meaningful. In our partnerships with LEAs, big and small, we continue to connect the dots and chart a course for transforming student success.

Parsec is committed to solving key challenges schools face by delivering impactful, data-driven solutions and dedicated ongoing support.

Parsec Analytics addresses the complexity of managing state and local data by providing clear, actionable insights in easy-to-understand visuals. Our education analysts walk alongside you in your data journey with quarterly insight meetings, keeping you aware of the bright spots to celebrate and areas for meaningful improvements.

Parsec Academy tackles the time-consuming nature of lesson planning by streamlining the process with its user-friendly platform. Simplifying the process for teachers to deliver high-quality, state-aligned instruction.

Parsec Real transforms feedback from overwhelming data into clear insights that directly improve educational outcomes. By simplifying the feedback loop, schools can continuously refine their strategies and foster a more effective, student-centered learning environment- while saving time and money.

Together, we empower schools to solve some big challenges of education—turning data and feedback into action for better student outcomes. For more information, reach out to us at hello@parseceducation.com.

Pearson Educational Solutions – Representing Nexus AI and EQUUS Leadership Solutions

Nexus – Your districts personal data analyst–Powered by AI

Nexus leverages Artificial Intelligence to help schools make smarter, faster decisions by enabling administrators to interact directly with their data. Acting as a fractional data analyst Nexus integrates seamlessly with existing systems, consolidating data from multiple sources into a unified platform. It automates data collection, analysis, and reporting, delivering actionable insights through intuitive dashboards. By streamlining workflows and eliminating time – consuming task, Nexus boosts efficiency, empowering educators to focus on what matters most– student success.

EQUUS – We are a comprehensive case management system for mental health and school safety.

Transform your school's approach to mental health and safety with digital case management tools from EQUUS Leadership Solutions. Unlike traditional paper-based methods, our digital solutions integrate mental health support with behavioral risk assessments, providing secure, centralized access to essential student data whenever it is needed.

Doug Waddill, M.Ed and MBA

Senior Account Executive
(501)232-7343
www.Calendly.com/dougw-sibme
www.sibme.com

Sibme was born from the passion and experience of teachers who recognize the power of effective learning. We knew that traditional employee training often lacked the fundamental principles of learning design, leaving us yearning for more engaging, relevant, and personalized development opportunities.

Driven by this desire, we created Sibme's software with a people – centric, employee-powered approach. Our philosophy is simple: true growth and development should be fueled from within, rather than imposed from above.

Our team is composed of former Sibme users and life-long learners, all dedicated to ensuring our customers success. We unite our service, training, consulting, and success teams under a single mission: to empower you to take control of your own growth and development.

At Sibme, we embrace the principles of employee-driven success, recognizing that our team members are the lifeblood of our achievements. Together, we unlock the potential within each Individual, fostering a culture of continuous improvement and collaboration.

Diamond Sponsor

D'Andre Ruff Stokes, MBA

PBS Corp. is an agency committed to the principles of Positive Behavior Support (an approach based on principles of applied behavior analysis, ABA) to improve not only behavior, but also quality of life for the individuals we serve, their families, and others who support them.

After an autism diagnosis, Positive Behavior Supports Corporation is here to help walk your family through the next steps. We provide individualized ABA Therapy for those with autism and related disabilities, children and adults, to assist with decreasing challenging behaviors and increasing appropriate behaviors and skill deficits that will allow the individual to reach their full potential.

GOLD SPONSORS

ACADEMICA NEVADA

Educational Management Service Provider

Academica Nevada has an experienced team of professionals that provide services and solutions for every aspect of charter school establishment and operation. The company ensures the school's governing body has complete autonomy and control over its school academic program, staffing needs and curriculum.

Academica assists charters in many ways:

Support

Provides charter schools with comprehensive service and support.

Management

Ensures a professionally managed and operated charter school meets the requirements of the school's contracts, local ordinances, and State and Federal laws.

Resource

Offers guidance and resources to guide charter schools from conception onward.

Vision

Ensure and implement the Board's vision for its school(s).

Founded on Principles

Academica Nevada was founded on the principle that each charter school is a unique educational environment that is governed by an independent Board with a specific vision for its school.

The primary purpose is to facilitate a Board's vision for its school and ensure that vision is implemented. To that end, Academica Nevada provides each school with the services desired by the School's Board.

Meet Your Needs

- Academica Nevada successfully manages the establishment and operations of charter schools from building concept to curriculum resources in a timely manner in Nevada, Arizona, Idaho, and Colorado.
- Current Schools:
 - Somerset Academy of Las Vegas
 - Somerset Academy of Arizona
 - Doral Academy of Nevada
