

AP Computer Science A - Summer Assignment 2026-27

Welcome to Computer Science A.

The summer assignment is to register at www.onlinegdb.com. On the left menu, click Sign Up and register your Bergenfield email address. I do not believe Google+ integration works, so you will need to manually type your Bergenfield address and create a password. After registering you will need to click a confirmation link in your email.

Once registered, your next task is to become familiar with the platform. From the main IDE, select Java as your language in the upper right corner (it is after the 8 C/C++ choices in the dropdown menu).

Watch the following videos and follow along using onlinegdb:

Unit 1

▶ AP Computer Science A - Unit 1: Primitive Types

<https://www.youtube.com/watch?v=BjRvQbWsTfM>

Unit 2

▶ AP Computer Science A - Unit 2: Using Objects

<https://www.youtube.com/watch?v=HZVwZa2vOZ8>

If you have any questions or concerns, email me at wnociti@bergenfield.org.

Sincerely,

Mr. Nociti
