- June 2026- September 2026 - University of Phoenix Continuing Education Courses
- Ongoing - Hood College Graduate School

# Classroom MANAGEMENT Course

In this hands-on, interactive, hybrid course, participants will go through the process of developing a comprehensive classroom management plan for immediate use.

“In this interactive course, you will learn how to organize and structure a classroom where students all know what to do leaving you time to teach. At the end of the course, you will have created a binder filled with procedures that will make your classroom hum with learning.”

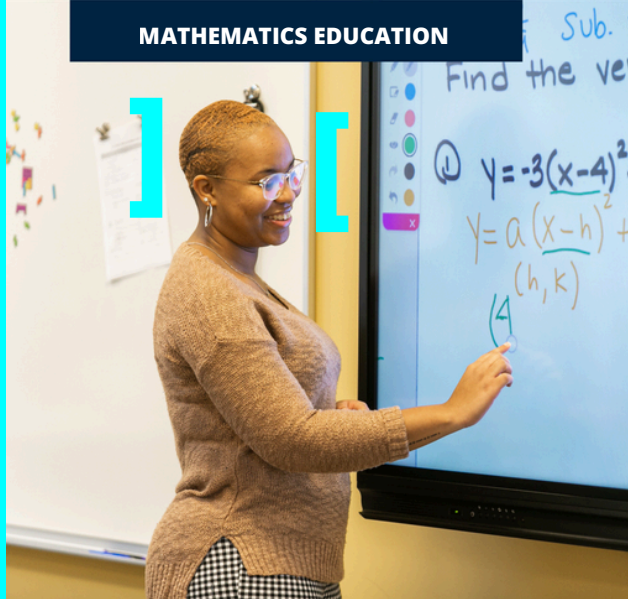

Recommended for teachers with 3 or less years of teaching experience.

HYBRID COURSE RUNS: JUNE 24, 2026 - AUGUST 5, 2026

## ADVANCE YOUR TEACHING CAREER.

Our master's degree in math education is designed to prepare teachers with advanced pedagogic strategies to ensure their students make the grade.

Expectations for PreK–12 students are higher than ever, particularly in mathematics, making strong teacher preparation essential. In the Master of Science in Mathematics Education program, candidates deepen their understanding of mathematics—from algebra and number theory to emerging technological tools—through active engagement with mathematical ideas, just as they will encourage their own students to do.

### **TWO TRACKS TO BETTER TEACHING**

We offer two tracks that fit your teaching goals. The middle school track is designed for educators who do not hold an undergraduate degree in mathematics, while the high school track is intended for those who have completed a bachelor's degree in mathematics. All courses are offered online, providing flexibility for working professionals.

### **NATIONAL BOARD CERTIFICATION**

Our program is designed with National Board Certification support in mind. Board-Certified teachers can apply **6 credits** toward the Math Education program.
