For third-party transportation options to MSP airport, please see the next page.

THIRD-PARTY TRANSPORTATION OPTIONS

While other transportation services to and from MSP airport are an option, hours and availability can be a significant concern for rides to and from our rural campus.

If you choose to use one of the options below, be sure to fully understand the limitations and you are encouraged to have a back-up plan ready other than SSM's transportation service. SSM will only guarantee the transportation of your child for arrivals and departures if you contract with us to provide our service in advance.

UBER, LYFT, ETC.

Drivers for these services are often unwilling to make the trip to rural MN. Some families have had good luck using them, but may be disappointed if they count on such a service to be available without a prior arrangement. Please note that our families have reported that it is often easier to get a rideshare in the Twin Cities going to Faribault than it is the other way around (i.e. you may have more luck getting a ride to SSM than to the airport), but it is never a guarantee.

KURTESY RIDE AIRPORT TAXI SERVICE

New service based in Faribault that specializes in airport runs to MSP. Must be arranged with them in advance. A good option for parents in need of a ride to and from campus. May transport students, but also has limitations on hours of operation and response to unexpected delays. If a flight's arrival delay pushes past their operating hours, or even their driver's availability during the day, they may cancel the contract and your child will be stranded. FIRST CHOICE SHUTTLE TAXI SERVICE

Faribault's only in-town taxi service. Reluctant to drive to MSP without prior arrangement. Does not accept credit/debit cards. Click here for more information: First Choice Shuttle
