Ready to take your crochet skills to the next dimension led by our very own district teacher? In Level II, we transition from flat rows to 3D crafting and assembly, transforming simple skeins of yarn into adorable, stuffed amigurumi plushies and a beautiful tote bag. Campers will level up their technique by learning how to read patterns, stitch in the round, and seamlessly join pieces together. To keep the creative energy high, we will also dive into exciting multimedia crafts like macramé, friendship bracelets, and weaving. Everyone will head home with a fabulous collection of finished pieces and the confidence to tackle advanced fiber arts! No transportation provided.
