

DISCOVER THE MUNSTER ADVANTAGE YOUR CHILD'S JOURNEY BEGINS HERE

Welcome to the School Town of Munster, where educational excellence meets a nurturing environment for your child's growth and development. At Munster Schools, we believe in providing exceptional opportunities for your student right from the start, and our kindergarten program is no exception.

Why
Munster
Schools?

As students learn to be kind, make friends and work together, they acquire skills they will build on throughout their years in school.

Kindergarten at the School Town of Munster will not only build an educational foundation, it will be the beginning of an adventure that children and their families will cherish forever!

LANGUAGE ARTS

Kindergarten literacy will engage students in daily lessons and activities that will develop their reading and writing foundational skills and provide an opportunity to express themselves through various modes of communication. Literacy components include vocabulary, oral language development, interactive writing, small group and independent reading, phonemic awareness, phonics, fluency, comprehension, read alouds, text discussion and independent writing/publishing.

MATHEMATICS

Kindergarten math curriculum aims to foster critical thinking skills by guiding students through the exploration of mathematical concepts and their relevance to the world. Through various activities such as calendar exercises, vocabulary building, collaborative problem-solving and hands-on manipulative use, as well as guided math lessons and centers adhering to established standards, students will engage with numbers and their applications in daily life.

Our kindergarten curriculum is designed to provide a well-rounded education that encompasses language arts, literacy, math, science, art, music, health and physical development. Through hands-on activities and engaging lessons, we lay a strong foundation for lifelong learning.

INTERACTIVE LEARNING ENVIRONMENT

In Munster Schools, learning is not confined to textbooks and desks. Our classrooms are vibrant spaces where children actively participate in their education. Through interactive lessons and collaborative projects, students develop critical thinking skills and a love for learning.

FAMILY INVOLVEMENT

At the School Town of Munster, we understand the importance of family involvement in a child's education. We encourage parents to be active participants in their child's learning journey. From volunteering in the classroom to attending school events, we foster a strong partnership between home and school.

FOCUS ON SOCIAL SKILLS

Kindergarten is not just about academic learning; it's also about social and emotional development. At the School Town of Munster, we prioritize teaching kindness, empathy and cooperation. Through activities that promote friendship and teamwork, students learn valuable social skills that will serve them well throughout their academic journey.

MEMORABLE EXPERIENCES

Kindergarten in the School Town of Munster is not just an educational experience; it's an adventure that your child and your family will cherish forever. From field trips to special events, we create memories that last a lifetime and inspire a love for learning.

Experience a top-notch education at the
School Town of Munster.
