MESSAGE FROM SUPERINTENDENT

Welcome to CRY-ROP! In partnership with the Colton Joint, Redlands, and Yucaipa Calimesa Joint Unified School Districts we educate approximately 7,000 students annually in Career Technical Education (CTE). CRY-ROP also offers many work-related services to our community. We believe College and Career are both imperative to the success of students, and we play a vital role in preparing students to choose the options that are best for them.

Career Technical Education aligns educational programs to labor market demand, and provides technical, academic and employability knowledge and skills. Most importantly, CTE prepares students for careers of their choice. Parents play an important role in encouraging students to explore traditional and non-traditional career options with their children to understand the steps to take to achieve their career goals by encouraging them to participate in CTE classes, work-based learning, job shadowing, industry tours, college visits, and talks with industry experts.

We invite you to browse through our website to learn more about us, view our different high school and adult programs, discover upcoming events through our social media, and contact us if you have any additional questions or would like to partner with us. All of us here at CRY-ROP are truly excited for another year of teaching and learning for the future.

Respectfully,

Dr. Jason B. Angle
Superintendent
