Arrival and Loading Process

Mornings:

The goal of the Transportation Department is to have buses arrive on campus no later than 10 minutes prior to the scheduled bell time. To ensure the buses remain on schedule for other scheduled routes, we ask that elementary buses be unloaded promptly at 7:00 a.m. (except for schools on staggered schedule or schools with double runs). Please understand that mechanical issues and substitute drivers may delay arrival times.

Afternoons:

The goal of the Transportation Department is to have afternoon buses arrive on campus prior to dismissal. Load times should be approximately 10-12 minutes. To ensure buses are kept on schedule for other scheduled routes, buses will not return to the lot for students who miss a bus. Please understand that mechanical issues, substitute drivers and parents of pre-k and kindergarten students not at bus stops may delay arrival times. Buses with routed doubles (2nd loads), should be parked and dismissed first in the afternoons to ensure they arrive back to campus in a timely manner.

Any delay over 10 minutes will be communicated to the school from the area transportation office as soon as the delay is reported.

Revised 06/17/2026

In compliance with federal law, UCPS administers all educational programs, employment activities and admissions without discrimination against any person on the basis of gender, race, color, religion, national origin, age or disability.
