- Apple (iOS) and Android
- Secure Access

Real Time Bus Location Information

Edulog Parent Portal lets parents see the time and location planned for school bus arrival at their child's bus stop. The app also lets them view the location of the school bus to gauge arrival times each day and sends a push notification to their smartphone when the bus enters a user-defined geographic area around the stop. Parents only receive access by registering with data unique to their child. It's all information to help parents feel secure about their child's trip on the school bus!
