

ST JOSEPH HIGH SCHOOL

SJ PATHWAYS PROGRAM

PREPARE FOR YOUR FUTURE.

St. Joseph High School's Pathways Program will enable students to enhance their transcript with courses specifically tailored toward their future career goals. St. Joes will offer two inaugural pathways: Healthcare Science and Business & Innovation.

COLLEGE PREP AT THE NEXT LEVEL:

- » Pathways completion is open to students in the Class of 2029 and on.
- » Pathways are a four-year program that will fit seamlessly into a Cadets' schedule -- allowing student to choose the courses that best align with their specific college or career goals.
- » Upon completion, students will earn a unique distinction on their transcript.

WHY CHOOSE A PATHWAY?

LEARN

Students will enjoy more classes in the field they wish to pursue in college. Participants who complete the Pathways Program will be recognized and earn an academic distinction on their transcript.

EXPLORE

Through valueable guest lecturers, exciting field trips, and alumni networking opportunities, students will gain meaningful exposure to and preparation for a variety of college majors and career fields.

EXPERIENCE

Experiential learning outside of the classroom. Pathway Program students will complete their coursework with either an internship or capstone project -- applying real-world knowledge to their academic pursuits.

For additional information, please contact Mr. Fatsy, Science Department Chair for the Healthcare Science Pathway or Mrs. DiBuono, Principal, for the Business & Innovation Pathway. Addition information can be found at sjcadets.org/pathways.
