

Affordable Care Act: Preventive Items & Services - Aspirin (2026)

KEY

Brand-name drugs are listed
in CAPITAL letters.

Generic drugs are listed
in lower case letters.

The Patient Protection and Affordable Care Act (PPACA) imposes a number of insurance reforms and mandates, including a requirement to cover certain preventive items and services at 100% and ensure these items and services are not subject to deductibles or other cost-sharing limitations.

This is not an all-inclusive list and does not guarantee coverage. This list is subject to change as ACA guidelines are updated or modified. Coverage of any listed medication, including over-the-counter (OTC) medications, requires a prescription from a licensed health care provider. Other rules, limits and exclusions may apply. Your cost share will be determined by your plan's drug coverage and formulary plan.

Express Scripts® Pharmacy Benefit Services manages your prescription benefit for your employer, plan sponsor, or health plan. Please check your benefit materials if you have questions on coverage. For specific questions about your coverage, please call the phone number printed on your member ID card or visit our website [express-scripts.com](https://www.express-scripts.com). If a qualifying medication is not right for you, you may be able to get an alternative medication covered at no cost to you. Please ask your provider to call the phone number printed on your member ID card to request a clinical review.

2026 Consumer Directed Healthcare (CDH) Preventive Medications - Standard Plus

This list provides examples of commonly prescribed preventive medications. It is not an all-inclusive list; however, many examples of the medications are listed in each category.

This list does not indicate coverage. Please check with your plan administrator and/or benefit information materials if you have questions on coverage. Your cost share will be determined by your plan's drug coverage and formulary plan.

Coverage prior to the deductible being met may not be provided for every strength or dosage form of a listed medication.

Please note: When feasible, brand names are shown in capitals in each category. If generic is available, it is listed in lowercase next to the brand name. If only generics are available (for example, brands are no longer available), they will only be listed in lowercase.
