

June 17, 2026

Dear New Lothrop Families,

I hope you are enjoying a wonderful start to your summer break. Thank you for your partnership and support throughout the 2025-2026 school year. Together, we accomplished many great things, and we are already looking forward to welcoming our students back for another successful year this fall.

While summer provides an opportunity for rest and relaxation, it is also a busy time for planning and preparation across the district. One of the most important tasks we complete during the summer months is developing efficient transportation routes to ensure a smooth start to the school year.

To assist us with this process, please take a few moments to complete the attached transportation registration form and update your transportation needs for the 2026-2027 school year. We encourage all families who plan to utilize district transportation to submit their information as soon as possible using the links below. Receiving this information early allows our transportation department to finalize bus routes, assign students, and communicate transportation details before the first day of school.

[2026-2027 Elementary Transportation Enrollment](#)

Thank you for your prompt attention to this request and for helping us prepare for a successful opening of the new school year. We appreciate your continued support and look forward to seeing our students back in August.

Have a safe and enjoyable summer!

Best,
