As was the case with the 2025-26 calendar, with summer construction continuing, the District will be streamlining this 2026-27 calendar so as to end classes as early as possible in June to allow for greater time allotment for construction in the summer months. This calendar is also fully aligned with the Becton calendar, specifically in regards to holidays and extended breaks, which allows for more efficiency with transportation as well as family schedules for those families who have K-8 Maywood and Becton students.

Three (3) Emergency (Snow) Closure Days are built into the calendar.
