Bentonville Schools

AP Exams for Students Not Enrolled in an AP Course

To: Students/families
From: Dr. Skyler Brown, Assistant Principal/AP Coordinator, BWHS
Date: 9/4/2019
RE: Guidelines for Taking AP Exams in Special Circumstances

Students in Bentonville Schools have the opportunity to take many Advanced Placement courses and potentially earn college credit through a qualifying score on the culminating AP exam. In limited circumstances, some students may be interested in taking the AP exam without having taken the AP course through Bentonville Schools. In those instances, see the guidelines below:

- Students must communicate their intent with the Assistant Principal who serves as AP Coordinator as soon as possible and **no later than October 1st**.
- The cost of the exam is **$85.00** and must be paid by the student before the exam can be ordered. A late fee of $40.00 may apply if the order is placed after November 15th.
- If a student would also like to receive credit on their high school transcript for taking an AP course through correspondence, they must submit a **completed transcript** to their counselor that shows the final grade.

For additional information, please see the Assistant Principal who serves as AP Coordinator. At Bentonville West High School, contact Dr. Skyler Brown at skbrown@bentonvillek12.org or 286-9804.
