Canvas Pairing Code Instructions

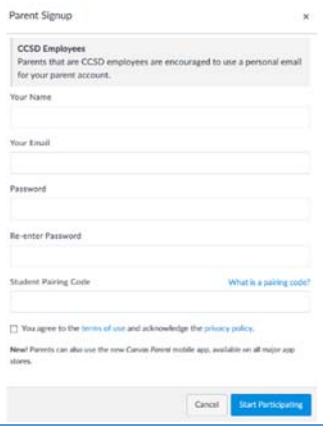

The Canvas Learning Management System (LMS) is a digital classroom for teachers, and students. Pairing will allow parents to create their own Canvas account so you can oversee your child(ren)'s digital classroom.

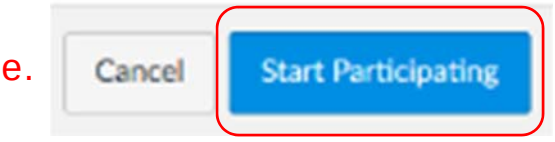

1. Students:
   a. Login to Canvas using their CCSD google account.
   b. Click on "Account" (left side of the screen).
   c. Click on "Settings"
   d. Click on "Pair with Observer" (right side of the screen). A screen will populate with the code. This code will change every time the student closes out of this screen.
   e. Students will give this code to their parents
   f. Parents will follow the direction below

2. Parents
   a. Go to CCSD Canvas https://ccsd.instructure.com/login/ldap
   b. Click on "Parent Login"
   c. Click on "Parents get accounts too" (bottom of this page)
   d. Fill in the form
   e. Click on Start Participating

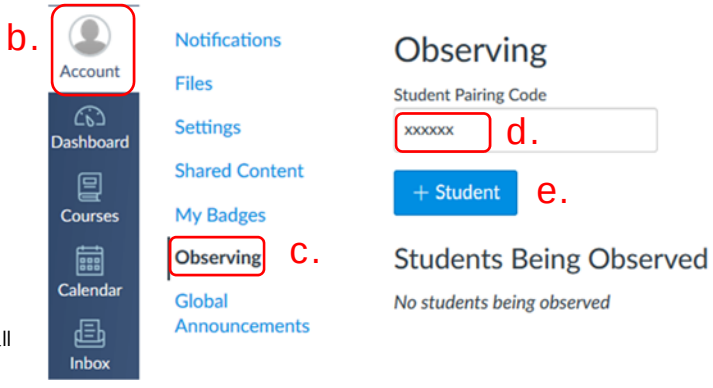

After your Parent account is created

   a. Login to your parent account
   b. Click on "Account"
   c. Click on "Observing"
   d. Type in your student's pairing code (see directions above on how to obtain it)
   e. Click on + student
   f. You will see your child's name populate below the + student box
   g. You can now click on "Dashboard or Courses" to see all your child's classes, assignments, schedules, etc.
