BRANDYWINE SCHOOL DISTRICT

2026 SUMMER CREDIT RECOVERY INFORMATION

As summer approaches, we want to ensure every student remains on track for success. Brandywine School District is again offering online credit recovery (make-up) courses for students who were unsuccessful in earning course credit during the regular school year. Our program provides a supportive, engaging environment where students can strengthen their skills, recover credits, and build confidence for the next school year.

These courses are for credit recovery only and cannot be taken for original credit. APEX/Edmentum, a leading K-12 virtual education service, coordinates the program, with courses aligned to the District's content and the State of Delaware standards.

Our school counselors have carefully identified students who would benefit from this program. If your child has been recommended, please complete the Registration Form below as soon as possible to secure their spot.
