

District Sound & Light Technician

Purpose Statement

The role of the District Sound and Light Technician is to provide technical expertise and assistance in the use of theater facilities. This includes operating, repairing, maintaining, and rigging theatrical equipment to support staff, students, and community groups in theater productions.

Supervisory Relationship

Reports to: Building Activities Director at each high school

Essential Functions

- **Technical Advising:** Advise students, staff, and community clients on safety, facility maintenance, theater activities, and the use of theater equipment.
- **Client Assistance:** Assist clients in designing, implementing, and supporting lighting and sound technical needs for theater productions.
- **Equipment Operation:** Operate theatrical lighting and sound systems, including audio systems, specialized audio equipment, and digital lighting systems, to provide necessary support for productions.
- **System Design and Installation:** Design, adapt, and install theatrical lighting and sound systems to meet the technical needs of theater productions.
- **Maintenance:** Maintain tools and equipment to ensure they are available and in safe operating condition.
- **Adhere to School Policies:** Follow school policies and procedures.
- **Attendance:** This position requires prompt and consistent attendance.
- **Perform Other Duties:** Perform additional duties as assigned to support the effective operation of the work unit.

Job Requirements: Minimum Qualifications

Skills

- Proficiency in operating theatrical lighting and sound systems.
- Strong technical problem-solving abilities.
