EASTERN
CENTER FOR ARTS AND TECHNOLOGY

Business & Technology Professional

Explore the possibilities of professionalism! The Business and Technology Professional program will prepare students for a career in a professional business environment. Students study business math, accounting, and the current Microsoft Office applications including Word, Excel, PowerPoint, Office 365, as well as other communications technologies. Students will enhance their communication, problem-solving, interpersonal, and soft skills. The program prepares students for entry-level employment as accounting assistants, bookkeepers, data input specialists, customer service specialists, and administrative assistants. With further education and experience, students can find opportunities in occupations such as human resources, office management, health records management, and accounting. Business and Technology Professional students may participate in dual enrollment with Montgomery County Community College for up to 9 transferable college credits. Students can obtain the Microsoft Office Specialist – Word certification.

Business careers in a professional office environment require computer, accounting, and communication skills. This field includes many diverse roles and job responsibilities such as operations managers, event planners, accountants, personal, administrative and executive assistants and customer service representative and in various business fields.

Networking and Cybersecurity

Would you like to be a college student while still in high school? While in EASTERN's Networking and Cybersecurity program, you can choose to enroll in

Montgomery County Community College for up to 12 transferable credits and are prepared for other industry-standard

certification exams. The program prepares students for networking, systems administration, and cybersecurity careers. The program includes some light scripting, but it does not involve any coding. With further education and experience, students can find opportunities in occupations such as network and computer administrator, computer network support specialist, network engineer, and security analyst. Students prepare for the TestOut Microsoft Server Certification exam. Networking and Cybersecurity is a **Registered Pre-Apprenticeship Program** sponsored by Drexel University, with benefits such as lab tours, employer opening notifications, admission to program upon successful certification and program completion, and more.

According to the U.S. Department of Labor, employment of computer and information technology occupations is projected to grow from 2021 – 2031 – much faster than the average for all occupations.

14.6%

from 2021 – 2031 – much faster than the average for all occupations.

Protective Services

Action, adventure, leadership, and service! Students in the Protective Services program gain hands on experience while preparing for careers dedicated to protecting life, property, and communities. This two year, half day program is a multi-disciplined course developed in consultation with a countywide advisory committee consisting of professionals from law enforcement, fire and emergency services, security, corrections, and post-secondary institutions.

Unlike programs that focus on a single specialty, students participate in all four career pathways throughout the program: Firefighting, Emergency Medical Services (EMS), Law Enforcement, and Security/Homeland Security. Instruction includes leadership, criminal investigations, motor vehicle crash investigations, fire investigations, emergency medical response, security systems, emergency management, firefighting operations, and public safety communications.

The program prepares students for entry level careers in firefighting, security, emergency medicine, law enforcement, corrections, and related public safety fields. Students have the opportunity to earn industry recognized credentials, including Firefighter I and Hazardous Materials Awareness and Operations through Bucks County Community College. Additional certifications may include CPR, First Aid, AED, National Incident Management System (NIMS) 100, 200, 700, and 800, and Emergency Medical Responder (EMR). Students develop leadership, teamwork, professionalism, and career readiness skills that provide a strong foundation for employment, military service, apprenticeships, and post-secondary education.

College credit opportunities may be available through SOAR.
