

June 1, 2026

Hello families!

Summer is here, and it is time to enjoy the warm weather! Getting out with your children safely to explore math in the outdoors can be fun! Indoors or outdoors, math practice helps them prepare for their new school year.

These **Summer Math Calendars** are for students to complete at home during July and August. **Participation is voluntary.**

The goal is for students to spend at least 10 minutes a day, 3 to 5 days a week, completing their choice of the short activities listed on the calendars. Please help them keep their work neat and organized. It shall be recorded in a physical notebook, folder, or binder. **Please DO NOT send the completed work electronically to the Director of Mathematics during Summer. It shall only be submitted to their new teacher when the school starts.**

Before sending the work to the teacher, please have your child's FIRST and LAST name and the grade they are entering visible on the cover of their paper. Students who return Summer Math notebooks or folders to their new teachers will receive recognition and an award from the Mathematics Department if they turn in completed work for **at least 24 days.**

These calendars will be available all summer on the Medford Public Schools' general website and the Mathematics Department page under the Medford Public Schools website.

Have a wonderful summer!!

Dr. Faiza Khan
Director of Mathematics K-12
Medford Public Schools
