1st Grade Social Studies

The purpose of this document is to clarify what students should know and be able to do each grading period.

The **Competencies** listed in the table below are developed from the Texas Essential Knowledge and Skills (TEKS) for that grade level. The chart defines which quarter the Competency is reported (Q1 = Grading Period 1, Q2 = Grading Period 2, etc.)

Teachers will report on the competencies using the **Competency Progressions** which are comprised of three proficiency levels (developing (DV), progressing (PG), and proficient (PG) and defines the knowledge and skills students will master on their pathway to proficiency. The Learning Progressions for each Competency are below the yearlong outline of the Competencies. Following the Learning Progression are the Competency Success Criteria, which define what a student knows and is able to do related to that competency at the end of a unit or quarter. To see what success on the competencies looks like in a particular unit, please see the **Public Overview** document for the course.

Students who receive a mark of "**Proficient**" meet the grade level expectation for that Competency.

Competencies	Q1	Q2	Q3	Q4
C1— Government The student understands the role of leaders and public officials in our community, state, and country.	X			
C2— Citizenship The student understands the role of good citizens in our communities.	X			
C3— Map Skills The student understands how to interpret and create a map of real place.		X		
C4—Culture The student understands that we live in a diverse community, but we share many similarities		X		
C5— Geography: Physical and Human Characteristics The student understands how geography influences our lives.			X	
C6— History The student understands how historical figures helped shape the state and nation.			X	
C7— Economics The student understands choices people make as a consumer and as a worker.				X
C8—Critical Thinking Skills The student applies critical thinking skills to gather and interpret information and to communicate in oral, visual, and written forms.	X	X	X	X

Competency Progression 3: Map Skills

The student understands how to interpret and create a map of real place.

Developing	Progressing	Proficient
Identifies the community where I live Identifies tools to determine location such as maps and globes	Identifies the community, state and country where I live Locates places in school Uses terms such as near, far, left, and right to describe their relative location	Locates the community, Texas, and U.S. on maps and globes Locates places using cardinal directions Uses cardinal directions to describe the location of self and objects relative to other locations Creates and uses simple maps of home, school, class, and community

Competency Progression 4: Culture

The student understands that we live in a diverse community, but we share many similarities.

Developing	Progressing	Proficient
Identifies various customs and traditions Gives characteristics of folktales and fables	Describes the importance of customs and traditions Explains the way folktales and legends reflect beliefs	Explains the importance of various beliefs, languages, and traditions of families and communities Explains the way folktales and legends reflect beliefs, language, and traditions of communities
