

Experiential Education is a style of teaching where educators purposefully engage with learners in direct experience and focused reflection in order to increase knowledge, develop skills, and create community.

Once a week for 3 hours, Wamsley Wildcats are immersed in experiences that encourage them to challenge themselves while allowing them to hone their strengths.

The benefit of “EE” is visible in the performance of students. Thanks to challenges faced on the trail, in camp, in the kitchen, with tools, and in the classroom, students develop resilience, teamwork, and bravery. These skills can carry over into other areas of life and assure a bright future ahead for any student.

Wamsley grows kind leaders and achievers by experiencing success today, tomorrow, and beyond!

Wamsley Elementary

We are a school intent on reinventing the educational experience for children through

**Experiential Education -“EE”
&
Adventure**

At Wamsley, children learn about core subjects, such as literacy, math, science and social studies. They also build life skills through the use of tools and cooking in the Kids Kitchen as well as through field trips, hiking, gardening and other forms of outdoor exploration.

Camping

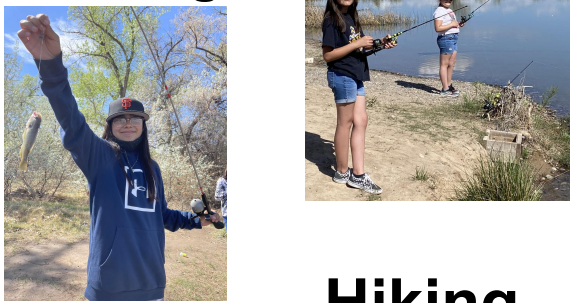

Cooking

Gardening

Fishing

During a school year, we embark on at least one overnight experience of physical and mental dexterity. The wilderness becomes our learning environment. Backpacks, tents, hiking boots, and fishing poles are our gear. Communication, perseverance, grit, compassion and reflection, our tools.

Hiking

Building & Tool Skills
