

Triennial Assessment Tool

Every three years or more often if the SFA desires, the LEA must conduct an assessment of the wellness policy that is made available to the public. The evaluation must address:

- Compliance with the district policy
- The extent to which the local wellness policy compares to the model local school wellness policy
- Progress made in attaining the goals of the wellness policy

The first triennial assessment should have been completed by June 30, 2020. The second triennial must be completed by June 30, 2023, or earlier. SFAs are required to make the Local Wellness Policy and Triennial Assessment available to the public.
