Scope of work

Walton County is requesting a firm quote for three ice machines (headers and bins) which adhere to the specifications included. Consider in the quote that there will be three locations for delivery and installation may be required for two of the three. A price will be requested for installation, and installation decisions will be included in notice to proceed. Delivery locations have a variety of loading dock setups.

Ice machine header and bin required to be Hoshizaki KML-325MAJ/B-500SF which meets the following conditions:

- Stainless steel exterior for header with vinyl clad bin
- Bin interior to be polyethylene
- Capable of making at least 300 lb of ice per day
- Capable of storing up to 500 lb of ice
- Unit shall be self-contained, air cooled and use R404A refrigerant
- Unit must be able to operate efficiently between 45°F and 85°F

Equipment shall be delivered wrapped and crated to prevent damage during shipping and storage. At two locations, dealer will be responsible for delivering inside the kitchen as well as uncrating and removing debris regardless of whether installation is required.

No installation required.
