Boundary & Long-Range Planning Committee

Guiding Principles

Educational Excellence & Educational Continuity

Boundary and long-range planning decisions will prioritize high-quality educational experiences for all students by supporting the [District's](#) vision and mission, maintaining program continuity, and minimizing unnecessary disruption to students and staff. Decisions should balance resources equitably across the system including programs, staffing, and facilities while ensuring students experience consistent learning opportunities and stable school communities over time. When changes are necessary, decisions should make all attempts to minimize disruption to students, families, and staff while maximizing positive outcomes.

Proximity & Keeping Neighborhoods Together

Planning decisions should strive to keep neighborhoods, subdivisions, and community areas intact whenever possible. Boundaries should follow natural or established geographic features and minimize barriers such as major road crossings, with student safety and reasonable travel distance as central considerations. Proximity decisions should support community cohesion while maintaining equitable access to schools and transportation.

Sustainable Plan Over Time

Boundary and long-range plans should be designed to remain effective and adaptable over time, accounting for enrollment growth, decline, and demographic shifts across communities. Sustainable planning supports each campus's long-term viability, avoids frequent boundary changes, and ensures decisions made today continue to serve students and schools well into the future.

Transportation Implications

Transportation considerations must align with existing standards and operational capacity. Planning decisions should seek to maintain reasonable student travel times, efficient bus routes, and manageable numbers of students, buses, and drivers, while ensuring equity, safety, and fiscal responsibility.

Community Input

Boundary and planning decisions should be informed by meaningful community engagement. Feedback from parents, staff, and affected schools should be actively considered, with attention given to school programs, community identity, and stakeholder perspectives. Transparent communication is essential to maintaining trust throughout the process.

Retain and Optimize DVUSD Buildings

District facilities should be used responsibly and strategically. Planning should consider how underutilized buildings and programs might be repurposed, consolidated, or enhanced to better serve students and communities. Where appropriate, the District may explore reasonable revenue opportunities that align with educational priorities and long-term sustainability.

Guiding Principles

Student-Centered Decisions

Every recommendation will prioritize the educational experience, safety, and well-being of DVUSD students above all other considerations.

Community Engagement

Transparent communication and meaningful input opportunities throughout the entire planning process.

Norms of Collaboration

1. Pausing

Use brief pauses to allow thinking time and support more thoughtful responses.

2. Paraphrasing

Restate ideas to confirm understanding and show active listening.

3. Probing for Specificity

Ask focused questions to clarify meaning and deepen understanding.

4. Putting Ideas on the Table

Share ideas openly and clearly for the group to consider.

5. Paying Attention to Self and Others

Stay aware of your own behavior and its impact on group dynamics.

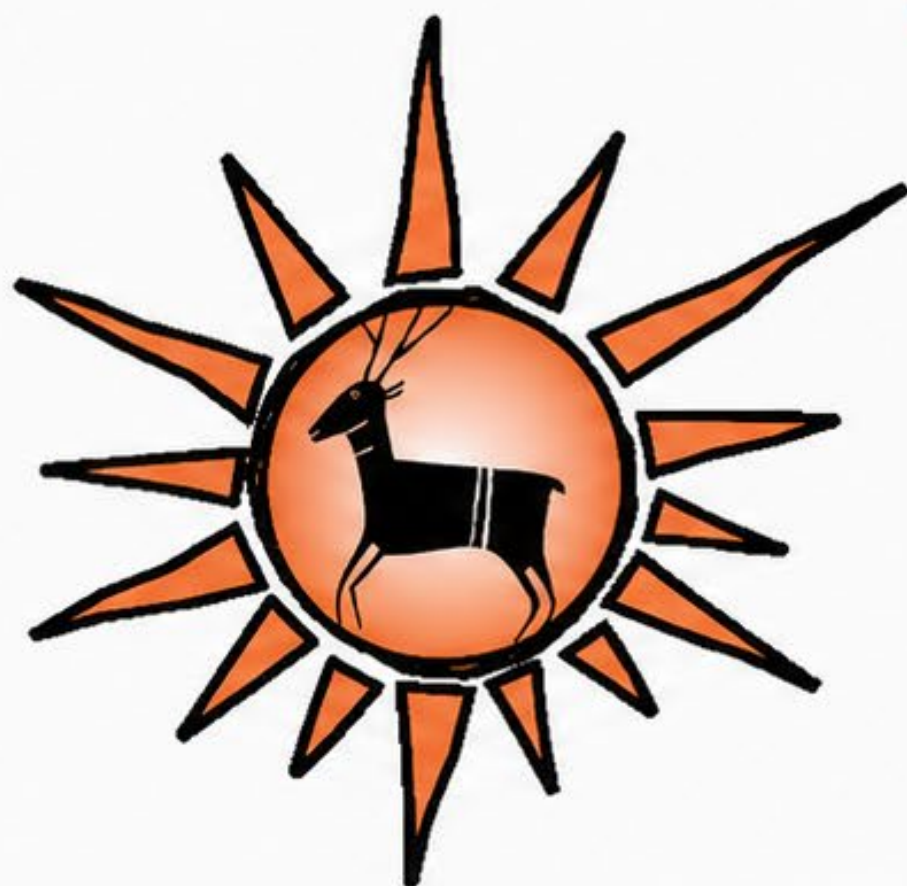

6. Presuming Positive Intentions

Assume colleagues' intentions are constructive to support trust.

7. Pursuing a Balance Between Advocacy and Inquiry

Offer your viewpoint while equally seeking to understand others.

Recommended Boundary Adjustments - SOHS Region

Sandra Day O'Connor High School Region

Schools affected:

Desert Sage
Hillcrest Middle School (50% SDOHS)
Inspiration Mountain
Las Brisas
Stetson Hills

Potential Adjustment

Summary of potential changes

- Adjust unpopulated portions of the Stetson Hills Boundary
 - Significant residential growth expected for North Park (south of TSMC)
- Will affect future projections
- Inspiration Mountain boundary extended north to the 303 from 51st Avenue to the Terramar boundary on the west.
- Canyon Springs extends south to the 303
- Stetson Hills retains east of 51st Ave to I-17 and north to the 303

Schools affected:

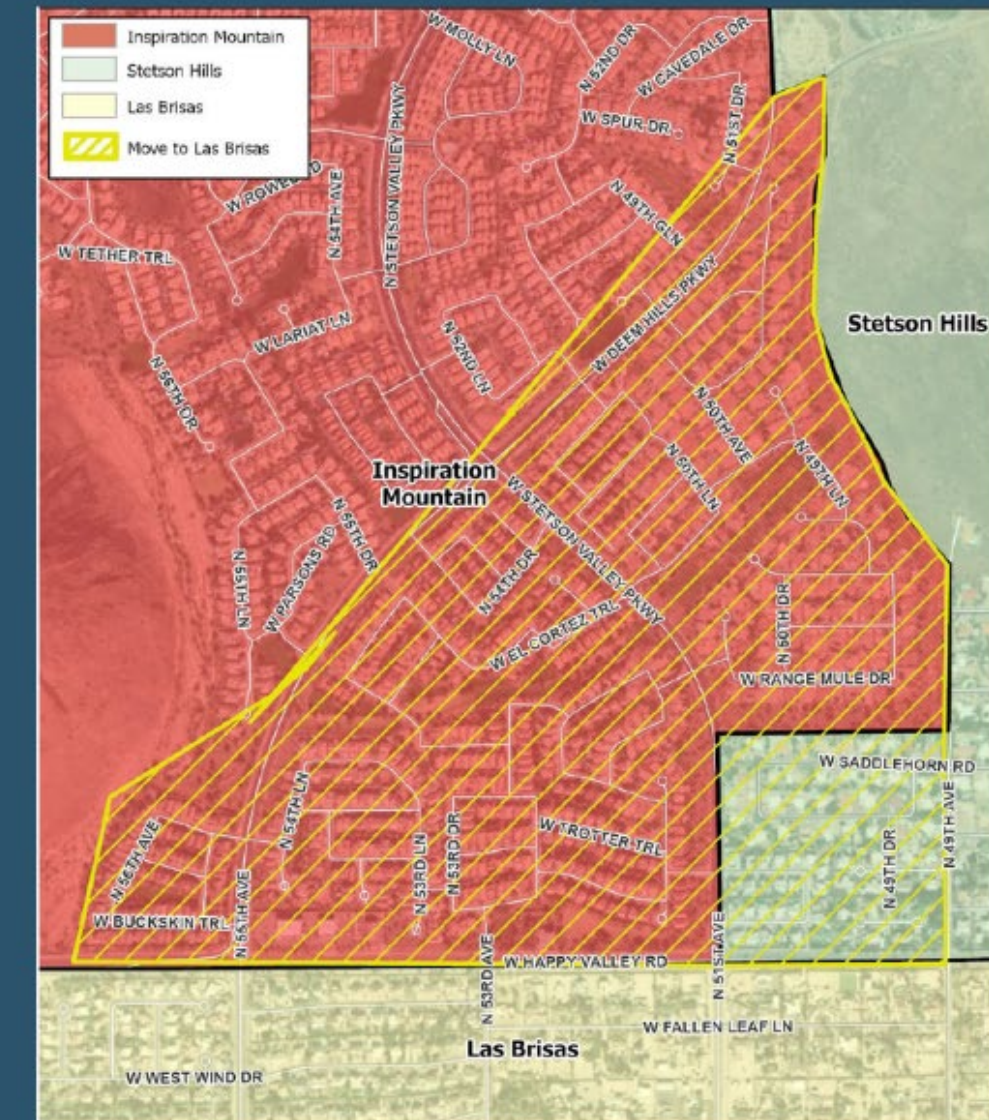

Desert Sage
Hillcrest Middle School (50% SDOHS)
Inspiration Mountain
Las Brisas
Stetson Hills

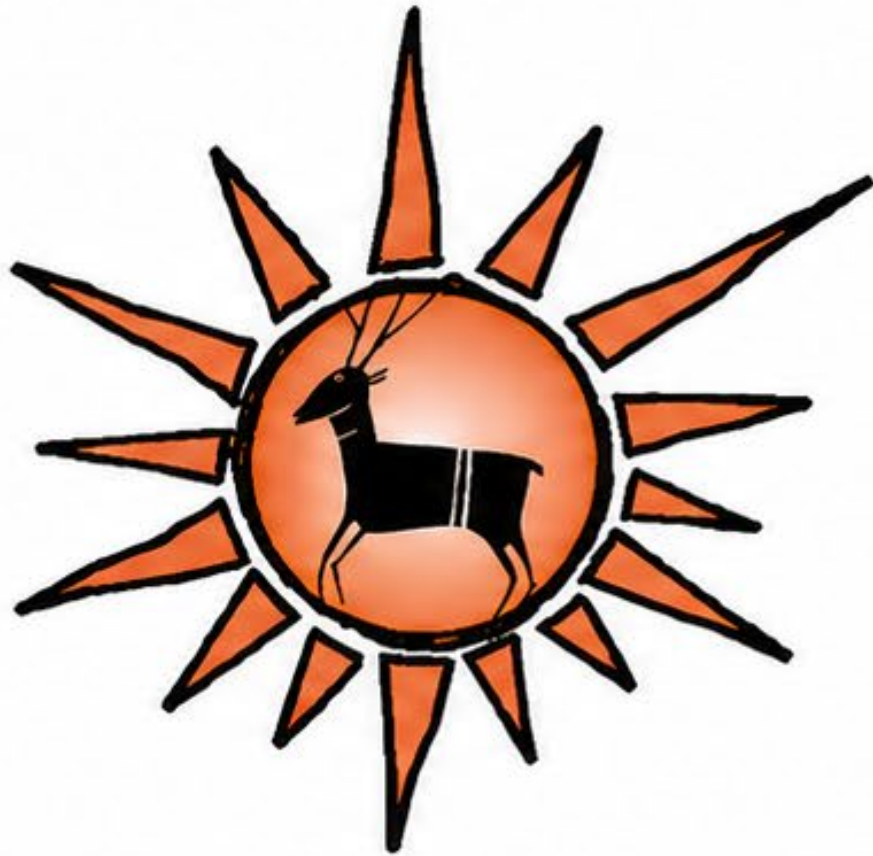

Potential Adjustment

Summary of potential changes

- Inspiration Mountain needs to retain room for expected developments to the north and Las Brisas, and is projected to remain <50% capacity.
- North of Happy Valley from 56th Ave on the west to 49th Ave on the east, north to 55th Ave, Deem Hills Pkwy (ending at entrance to Deem Hills Community Park) move to Las Brisas
- This includes a small block between 51st Ave and 49th Ave, and Saddlehorn Rd, currently Stetson Hills to Las Brisas

Data Requested

Data for School Identification

- 1.Guided discussion on what data are available
- 2.Actual Enrollment to Demographer Projections for 5 Years
- 3.Open Enrollment
- 4.Preschool Enrollment
- 5.Region/ Campus Capacity

Data for Feasibility of Recommendation

1. Bus Routes and transportation participation
- 2.Special program enrollment; including open enrollment
- 3.Parent input

Data Available

DVUSD Data

1. Enrollment by week for over a decade
2. Current bus routes, stops, and eligible riders by route, campus or program
3. Open Enrollment by campus and program; in and out of district
4. Preschool enrollment by campus
5. Enrollment to capacity comparison for decades

Demographic Report Data

1. Enrollment projections - 10 years
2. Historic and projected by grade & level (not campus)
3. Capture rates by school
 - a. How many students live in the school boundary and how many are enrolled; service rate
 - b. Attendance versus residence, current and historical
4. ESA Participation in District
5. Charter enrollment in District
6. Visual geographic distribution of students
