

Building Safe, Modern Schools for Today's Students and Tomorrow's Community

Safe, modern, and well-maintained schools are essential to student success, supporting learning, teaching, and community connection. As facilities age and educational needs evolve, ongoing investment is necessary to maintain critical infrastructure, expand capacity, and create spaces that support today's programs and technology. By investing in its schools, Natomas Unified ensures students have safe, high-quality environments that promote achievement now and into the future.

A Strong Track Record of Delivering for Students

Natomas Unified has responsibly invested in school facilities through prior voter-approved bonds:

- Measure L (2018): \$172 million
- Measure J (2014): \$129 million
- Measure D (2006): \$115 million

Completed Projects Include:

- ✓ New and expanded schools (Heredia-Arriaga, NP3 Elementary, Paso Verde, Westlake Charter K-8)
- ✓ New and Expanded Career Technical Education Facilities
- ✓ K-8 campus conversions to better serve families
- ✓ Student safety upgrades (cameras, secure entry, fencing)
- ✓ Athletic and student program improvements
- ✓ Joint-use community facilities, including aquatics center in North Natomas

Fiscal Responsibility:

- Clean audits and transparent reporting
- Leveraged state funding, developer fees, and grants
- Strategic financing to reduce long-term costs

DISTRICT AT A GLANCE

17,855

Students Served

Graduation Rate *
(higher than state and county average)

Strong programs
in STEM, CTE, dual immersion, and college pathways

NUSD is the **most diverse school district in California**—and among the most diverse in the nation.

Looking Ahead: Future Facilities Needs

To continue supporting students and a growing community, Natomas Unified has identified **over \$1 billion in long-term facilities needs.**

INVESTMENT PRIORITIES

Modernization & Repairs

- Update aging classrooms and buildings
- Replace HVAC, roofing, plumbing, and electrical systems
- Improve accessibility and safety

New School Construction

- Build new schools in growing areas
- Relieve overcrowding

Infrastructure & Technology

- Upgrade electrical and network systems
- Support digital learning environments
- Improve energy efficiency

Student Programs & Opportunities

- Expand STEM, science labs, and CTE facilities
- Enhance arts and athletic spaces

Specialized Student Needs

- Transitional Kindergarten (TK) expansion
- Special education and student support spaces

Building and Construction
Trades Pathway

A COMMUNITY INVESTMENT

Natomas Unified is more than a school district—it is a cornerstone of the community.

- Major local employer
- Workforce pipeline through CTE and college pathways
- School campuses serve as community hubs and gathering spaces

Planning for the Future

The District's Facilities Master Plan guides long-term investments and reflects community input, ensuring thoughtful, transparent decision-making.

Commitment to Students & Community

Well-maintained, modern schools support:

- Student achievement
- Safe and secure campuses
- Strong neighborhoods and property values
- Long-term fiscal responsibility

Natomas Unified is committed to planning responsibly today to meet the needs of tomorrow.
