How to Review Your Student's Transportation Details

You must complete the Census Verification before you can view your child's school transportation information.

1. Sign in to your Infinite Campus Parent Portal.
2. Once signed in, you will see your student's summary page.
3. At the bottom left, click **More**, then **Transportation**

4. Once you click **Transportation**, it will send you to the **Transportation Bus Detail** section.

5. Here, you can verify the details of your child's route, including the bus number, bus stop, and the pick-up/drop-off times. (*To School* refers to the morning route, and *From School* refers to the afternoon route.)

Please note: Your child's transportation details are based on your primary address in Infinite Campus. If this information is invalid, please contact your child's school of attendance and speak to the registrar. Your residency information must be updated to receive accurate transportation details.
