We have received several questions regarding the timeline for capital improvement projects. To help provide clarity, we have included a tentative project schedule with this week's update. This schedule outlines the anticipated start and completion dates for each project area. Please note that the costs associated with these projects are estimates, and the dates are subject to change based on weather conditions, material availability, and contractor schedules, but it should give you a good overview of the scope and timeline for completion of the projects.

In addition, we're pleased to share that the solar panels for the Transportation Building have been delivered to the district. Installation will begin soon, marking an exciting step forward in our efforts to improve energy efficiency and reduce long-term operational costs.

~ Jeff Hersh, Superintendent

USD 261 Capital Improvements Weekly Update: October 15, 2025
