HOW IT WAS

I'm Ted Groszek, Custodian at Pine School. I have been here since the school began (Been here since 1949). We started out with 200 children and had as many as 495. Since then, there have been seven principals here and I am still the only one left. I like my job, like children and try to do the best for them.

It took a little doing (without money) to get this time capsule all put together. We had no funds to work with, but here it is.

I am dead but here is the capsule.
