

Greetings from the Past,

I have been teaching for 8 years. My husband and I run Ravenwood Kennels. Here are raised some of the best Rottweilers, Alaskan Malamutes and English Bulldogs in the country. I live quite close to the school on US 20. There are no houses but ours and the area is covered with trees. This Bicentennial year has been especially exciting for me this summer. Our family traveled from parade to parade on an eighty (80') long float put together by my brother Ross Bradley for Bradley Trucking. We collected a total of 6 trophies.

Inflation has taken its toll as prices keep going up -- especially food. Gardens were big and everyone scrambled for canning lids for the 2nd year in a row.

Television has made its mark on children, as they are more knowledgable and are exposed to more things. This has good and

bad points

The weather in this area seems to be becoming more temperate. We no longer have a long hot summer -- just a few hot days. Winter no longer has an abundance of snow, but a snowfall here and there.

Purchased items are not made to last, but seem to fall apart soon.

I hope the years have brought mankind closer to world-wide peace.
