

1976 - 2026

Fifty years from now
It seems so far away,
Here's hoping you'll remember us
In some simple way.

Nov. 19, 1976

Hi,

I'm Marea O'Neil. I've been with Pine School for one year now going on my second year. Last year I did volunteer work all year, but this year I'm a paid teacher's aide.

Love the work. It is most rewarding to be of some help to the children in the school. I help in the classroom as well as working with students on a one to one basis.

The method of teaching has improved 100% since I was in school. The 3rd graders are learning things that I didn't learn till I was in Jr. High School. Of course, in the fifty

years that this letter is in the time capsule, I can just imagine what improvements there will be in 2026!

I would very much like to be with you when you open this, but no one can say who will be here in 50 years. I sincerely pray that there will be peace and brotherhood all throughout the world.

My love to all of you who just might remember the lady who thought so much of all of you fifty years ago!
