

Annual Integrated Pest Management Notice For School Year 2023 – 2024

Dear Parent, Guardian, or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. Spotswood Board of Education has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic preventative approach to managing pests that is explained further in the school's IPM Policy which is available on the district website.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for the Spotswood Board of Education is; Joseph Luttmann, CEFM.

Contact Information: Spotswood Board of Education
105 Summerhill Rd. Spotswood, NJ 08884
732-723-2200 x 5062, or, jluttmann@spsd.us

The IPM Coordinator maintains the pesticide product label, and the Material Safety Data Sheet (MSDS) (when one is available), of each pesticide product that may be used on school property. The label and the MSDS are available for review upon request by a parent, guardian, staff member, or student attending the school. Also, the IPM Coordinator is available to parents, guardians, and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school management plan, Spotswood Board of Education may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

The following items are included with this annual notice:

- A copy of the school district's IPM Policy, which is available on the district website
- A copy of the district IPM Plan
- A list of pesticides that have been used in the past 12 months on District property.

**Please see the specific IPM plan for your location, which can be found at each school, that will list the pesticides from those listed below that were actually used at your site.*
