

Williamston Community Schools
Two-Year Report on Achievement of Goals and Objectives
HIV/AIDS and Sex Education
[Publication Date: June 2026]

Background Information

In June of 2004, the Michigan state legislators passed Public Acts 165 and 166 which modified Michigan laws related to sex education in public schools. Public Acts 165 and 166 outline the planning, training, and implementation mandates for HIV/AIDS and sex education (PA 165 of 2004) and a parent complaint process (PA 166 of 2004).

These acts stipulate the make-up of each district's Sex Education Advisory Board (SEAB) as well as their roles and responsibilities. Part of the role of the SEAB is to:

- *Establish program goals and objectives for pupil knowledge and skills that are likely to reduce the rates of sex, pregnancy, and sexually transmitted diseases; and*
- *At least once every 2 years, evaluate, measure, and report the attainment of program goals and objectives established under subdivision (a). The board of a school district shall make the resulting report available to parents in the school district. MCL [380.1507](#)*

Approved Goals, Objectives, and Curricula

The Williamston Community Schools (WCS) Sex Education Advisory Board (SEAB) has recommended and the WCS Board of Education has approved the following goals and objectives for the K-12 program of instruction in HIV/AIDS, reproductive health, and sex education. The goals and objectives are aligned with state laws, the State Board of Education [Policy to Promote Health and Prevent Disease and Pregnancy \(2003\)](#), and the [Grade Level Content Expectations as well as the Michigan Merit Curriculum Credit Guidelines for Health Education](#), adopted by the Michigan Board of Education (2007).

Program Philosophy:

Age-appropriate, medically-accurate instruction in sex education including, but not limited to, family planning, human sexuality, and the emotional, physical, psychological, hygienic, economic, and social aspects of family life. Instruction may also include the subjects of reproductive health and the recognition, prevention, and treatment of sexually transmitted diseases. The District's sex education curriculum must comply with state law.

Instruction must include principal modes by which dangerous communicable diseases, including, but not limited to, human immunodeficiency virus infection and acquired immunodeficiency syndrome, are spread and the best methods for disease prevention.

Sex education instruction must be provided by qualified instructors as defined by state law. Instruction must stress that abstinence is (1) a responsible and effective method of preventing unplanned pregnancy, out-of-wedlock pregnancy, and sexually transmitted diseases, and (2) a positive lifestyle for unmarried young people.

**Goal:**

To empower students with the knowledge and skills needed to make responsible decisions regarding the mental, emotional, social, and physical aspects of human sexuality.

Objectives:

At the end of the K-12 HIV/STI and sex education program of instruction, students will be able to:

- To develop a wholesome attitude toward human sexuality
- To develop an understanding of healthy relationships
- To understand the meaning of sexual harassment and coercive relationships
- Identify their own family values leading to sexual health
- Demonstrate tolerance for people with different values
- To communicate the desire to remain abstinent and practice refusal skills
- Ask questions of parents and other adults about sexual issues
- To understand the impact of media messages on thoughts, feelings, values, and behaviors related to sexuality
- To practice health-promoting behaviors, such as regular check-ups, breast or testicular self-exams
- To understand the consequences of sexual activity
- Seek further information about sexuality as needed and know how to find that information

The WCS Sex Ed Advisory Board will re-evaluate previous objectives during the 2026-27 school year to align with current goals and program philosophy.

Evaluation, Measurement, and Attainment of Program Goals and Objectives

In 2025, Williamston Community Schools participated in the Youth Risk Behavior Survey (YRBS). Results of this survey are not yet available. During the 2026–27 school year, the Williamston Community Schools SEAB plans to examine and refine our evaluation processes to improve our ability to measure objectives and goal attainment for planned implementation in the 2027-28 school year.

Sex Ed Program Activities and Next Steps

The WCS Sex Ed Advisory Board meets monthly during the school year to ensure all the responsibilities of the SEAB are fulfilled. Meeting minutes are available upon request. During the 2024–2025 and 2025–2026 school years, the SEAB reviewed the current curriculum, identified the need for updated course materials, and unanimously voted to recommend lessons from the Michigan 3R's 4th and 5th grade curriculum. The SEAB will formally present this recommendation to the school board for consideration during the 2026–2027 school year. Additionally, the SEAB plans to review and update objectives, evaluation processes, and secondary curriculum options during the upcoming school year.

Accessing the Results

Copies of this report are available at the Williamston Community Schools Administrative Office, 418 Highland St, Williamston, MI or on the Williamston Community Schools District website, www.gowcs.net. This report was prepared by Williamston Community Schools Sex Ed Supervisor. Please contact Williamston Community Schools at 517-655-4361 with any questions about this report.
