ICS Student Drop-Off & Pick-Up Guidance

Please be safe. Please be courteous.

Student Drop-Off:

- Use 110th Ave NE and NE 65th Street to access campus.
- Enter the campus only via a right turn from NE 65th Street.
- Do not use 112th Ave NE since traffic is not allowed from that location from 7:15-8:00.
- Using 111th Ave NE is not recommended since the no stopping zone must be kept clear for turning traffic.
- Pull as far forward in the drop-off zone as you can before dropping off your students. Pull all the way to the end of the flagpoles if possible (yellow circle on map).
- Have your students ready – backpack with your student, not in the trunk.
- Students should exit your vehicle only from the curbside in the designated drop-off zone (highlighted in green).
- The main parking lot is closed during drop-off to prevent vehicle and pedestrian traffic crossing the drop-off route. If you must park, use the student and parent parking lot (highlighted in blue) in the SE corner of campus.

Student Pick-Up:

- The student and main parking lots **may be used during pick-up**. Using these parking lots lessens the congestion in the neighborhood while pick-up is more staggered. If you use either of these lots during pick-up, please park in an available spot and wait for your student to come to you.
- If you are waiting in the drop-off/pick-up zone and there are gaps in front of you, please pull as far forward as possible so that vehicles behind you may enter campus.

General Considerations:

- Please do not honk or block intersections or driveways.
- Be mindful of cars passing you in the drop-off zone, students exiting vehicles, and pedestrians in the parking lots. It only takes one rushed moment to cause a safety issue.
- Be careful when exiting the campus. Come to a full stop at the stop sign and remember that cross traffic on NE 65th Street has the right-of-way and does not stop!

Do NOT use 112th Ave NE to enter campus during drop-off. As the City of Kirkland sign indicates, this route is closed from 7:15-8:00.

The No Stopping Zone is designed to keep the intersection from being blocked. Turns are difficult so using 111th Ave NE during drop-off is not recommended.

The main parking lot is CLOSED during drop-off to prevent vehicle and pedestrian traffic crossing the drop-off route. The student and main parking lots **may be used** during pick-up.

Avoid the drop-off rush! Students may be dropped off as early as 7:20!
