HUES
FEE: \$ 225

In this one-week art-based summer camp taught by our own district staff, campers will be combining their interests with creativity by exploring a variety of 2D art materials and projects! Throughout this week, campers will explore the art of drawing, collage, printmaking, and watercolor painting. Projects will include mixed media (collage) portraits, custom album cover redesigns, printmaking on various materials, and watercolor Polaroid paintings! Through participating in making these creative projects, campers will explore and develop their artistic abilities by building confidence in their creative decision-making. They will learn how artists communicate ideas through art and experiment with different materials and processes. By the end of this week, campers will leave with a variety of art projects that showcase their creativity and artistic growth!

Projects will be customized based on age groups. No transportation provided.
