If the Governing Board finds that extension of time is equal to the delay resulting from such cause or causes of, the Governing Board may, at its option, rescind the contract. Delays attributable to supply chain or inventory issues will not constitute excusable delays.
6. The Board of Education anticipates awarding by line item to the lowest responsive and responsible bidder; however, the Board reserves the right to reject any or all bids, waive informalities, and award one or more contracts as permitted by law. Per Public Contract Code Section 20117, if two or more bids are identical in all respects, the district may determine by lot which bidder will be awarded the contract or the vendor who has offered the most consistent service and reliability in the past. 7. Bidders may elect to bid on any or all items. "ALL OR NOTHING" BIDS WILL NOT BE ACCEPTED.

The letter must be signed by an authorized representative stating specific reason(s) for the protest including all relevant facts (law, rule, regulation, and criteria). Bid protests will be reviewed by the Director of Purchasing and the Assistant Superintendent of Business Services. The affected proposer will be given an opportunity to rebut the evidence and present evidence that the proposer should be allowed to perform the work. The District will issue a written final decision within fifteen (15) days of receipt of the protest unless factors beyond the District's reasonable control prevent such resolution.
11. Per Public Contract Code Section 20117, if two or more bids are identical in all respects, the district may determine by lot which bidder will be awarded the contract, by coin flip, or to the vendor who has offered the most consistent service and reliability in the past. This requirement applies to competitive bidding for the purchase, sale or lease of real property, supplies, material, equipment service, bonds, or the awarding of any contract.

15. If an awarded bidder defaults, the District may procure the materials or services from other sources, typically the 2nd place bidder, and may recover the loss occasioned thereby from any unpaid balance due the bidder or by proceeding against a bidder's bond, if any, or by suit against the bidder. The prices paid by the District shall be considered the prevailing market prices at the time such purchase is made.
16. In the event of litigation, the bid documents, specifications, and related matter shall be governed by and construed in accordance with the laws of the State of California. Venue shall be with the appropriate state or federal court located in Kern County.
17. 18. The successful bidder shall agree not to assign, transfer, convey, sublet, or otherwise dispose of the items appearing on this bid form, or any rights accruing thereunder, title or interest therein, funds to be received hereunder, or any power to execute the same without the consent in writing of the District Governing Board. Notice is hereby given that the District will not honor any assignment made by the successful bidder unless consent in writing, as indicated above, has been given.
19. In connection with the execution of this contract, the bidder shall not discriminate against any employee or applicant for employment because of race, religion, color, sex, or national origin. The bidder shall take affirmative actions to insure that applicants are employed, and that employees are treated during their employment, without regard to their race, religion, color, sex, or national origin. Such actions shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, lay-off, termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.
20. All pricing quoted herein shall remain firm through February 5, 2027. Price increases on renewal years may not exceed the 5% aggregate. A price increase, if exercised, shall be fully justified by the vendor and proved by a test of the market and/or submission of documents from the manufacturer. Percentage increases will be taken into account when reviewing the renewal options. At no time shall an increase exceed five (5) percent. In the event that the market conditions change resulting in a price decrease, it is expected that the successful bidder shall pass those savings onto the District.
