Herricks Middle School
Math Summer Review Assignments

Dear Student/Parent/Guardian,

It's important to relax and enjoy your time over the summer. It's also valuable to keep up your math skills. The Herricks Middle School mathematics department suggests that you take time during your summer break to complete the summer review assignments for the course you are entering in the fall. These are optional for incoming 7th graders, and for Pre-Algebra students. This will count as a HW assignment for Algebra students.

Have a healthy and safe summer break!

Here are Khan Academy "Getting Ready for…" assignments. You can login using your Herricks google login.
