

ENGLISH LEARNER IDENTIFICATION PROCESS

1

LANGUAGE USAGE SURVEY

The Language Usage Survey (LUS) is given at enrollment. EL Teachers review the survey and add students to the "Potential EL Students" Spreadsheet.

2

PARENT SURVEY

Potential EL families are given an additional survey to determine how language is used in the home.

3

TEACHER DETERMINATION

EL teachers review each survey, as well as the student's previous education, and determine who should receive the Ohio English Language Proficiency Screener (OELPS).

4

OELPS

Students are given the OELPS within the first 30 days of school, or after enrolling within the first 15 days.

5

PARENT NOTIFICATION

EL families are notified of screener results within one week. Students are added to EMIS and identified as English Learners.

6

SERVICES

EL teachers determine the appropriate services for each student. Collaboration between the EL teacher and general education teachers takes place.
