

River Oaks Elementary Roadrunner Nest (ROE RN)

Enrichment Classes for Fall 2026

(Mon-Thur: August 31 – December 11)

NOTE: Registration begins Thursday, July 1 at 10:00 AM via the Vendor's Websites and ends on Friday, August 21 at midnight. Classes begin Monday, August 31 and end on Friday, December 11. (The week of December 14 will be set up to make up classes that may have been canceled during the semester.) **If you have an outstanding balance with Roadrunner's Nest, you must pay the balance before registering in any Enrichment Class.** Registration and payments will be processed by each vendor (NOTE: Registration links are posted for each class listed below and at the end of each class description.) **Be sure to read all info Vendors provide on their registration sites. Their registration sites include the costs of classes as well as any additional costs associated with supplies, uniforms, etc. In addition, you will also find information regarding class attire, student expectations, class descriptions, policies of refunds, etc. For any additional information, you are to contact the Vendor directly (contact info on each of their links.) Thank you.**

M O N D A Y

Cheer/K-5th/12 Monday/3:15-4:15 by Houston Healthy Hip-Hop

Class Description: In the cheer afterschool program, students will develop teamwork, discipline, and leadership skills while enhancing their physical fitness and coordination. They'll learn cheer routines, stunts, and chants, building confidence and a strong sense of community.

Vendor Description: Houston Healthy Hip-Hop has been in business for over 15 years with HISD, Spring ISD, Alief ISD, Pasadena ISD, Galena ISD and several non-profits. We offer a variety of Art, Dance, Martial Arts and Sports Classes to children in the Houston Community, such as Art Multimedia, Martial Arts, Baile Folklorico, Ballet, Hip-Hop, Cheer and a variety of Sports.

NOTE: This class will form with a Minimum of 10 students and a Maximum of 15 students. Students who register for this will participate in an end of year performance which will be scheduled during the final session. Be sure your child wears comfortable clothing including closed sneakers appropriate for cheer movements. Pom Poms will be provided.

Please visit our website to learn more: www.houstonhealthyhip-hop.com

Mega Robotics Experience/2nd-4th/12 Monday/3:15-4:15 by American Robotics Academy

Class Description: This fast-paced, higher-level workshop introduces students to motorized robotics, sensors, coding, and mission-based challenges. Students build complex models, experiment with different gear setups, explore how coding controls mechanical systems, and work as a team to complete technical challenges. The program boosts advanced STEM skills, creativity, analytical thinking, and prepares students for future robotics competitions and engineering pathways.

Vendor Description: American Robotics Academy aims to excite, inspire and motivate students in grades K-5 about the importance of engineering, robotics and coding technology. The curriculum is grade level based. Please note: Some workshops require a student to read the instructions. Upon registering your child, please be prepared to provide the following required information: STUDENT NAME, GRADE, CLASSROOM TEACHER, ALL PARENT NAMES AND CONTACT INFORMATION, ALLERGIES, ANY PERSONS AUTHORIZED TO PICK UP (INCLUDING CONTACT INFORMATION), AND IF YOUR CHILD ATTENDS YOUR CAMPUS EXTENDED DAY/AFTER SCHOOL PROGRAM.

No refunds are given for student absences. No refunds will be given after the first week of classes.

NOTE: This class will form with a Minimum of 6 students and a Maximum of 16 students.

A 15% processing fee will be applied to all refunds prior to the second class starting. Withdrawals done after the start of the second class are not subject to a refund. Refunds are not issued for student absences.

Pickleball/1st-5th/12 Monday/3:15-4:15 by Hamp's Camp

Class Description: This fun and energetic course introduces children to the basics of pickleball, a fast-paced sport combining elements of tennis, badminton, and ping pong. Through engaging drills and games, kids will learn the rules, develop hand-eye coordination, improve their agility, and build teamwork skills. Perfect for young beginners, this course is designed to be fun while helping kids stay active and improve their sportsmanship!

Vendor Description: Welcome to Hamp's Camp Inc After-School Sports Program, where we believe in fostering not just athletic abilities but also teamwork, discipline, and personal growth in children. Our program offers a diverse range of sports activities designed to keep kids active, engaged, and having fun during the after school hours. "Our mission is to provide a safe, inclusive, and supportive after-school environment where children can engage in various sports activities. We aim to promote physical fitness, develop fundamental sports and performing skills, and foster confidence, teamwork and sportsmanship. Through our program, we strive to instill a lifelong love for sports and healthy habits in the participants, empowering them to grow as individuals both on and off the field."

NOTE: This class will form with a Minimum of 10 students and a Maximum of 20 students.

Be sure your child brings their filled water bottle and they wear comfortable clothing including closed sneakers appropriate for sports.

Chess/K-5th/14 Tuesday/3:15-4:15 by The Knight School

Class Description: The Knight School has finally perfected the chess class and is sweeping the nation with this hilarious, kid-focused, amazingly cool approach to a big, fun, and genuinely thrilling experience. Grandpa's boring chess class has now evolved into The Knight School's chess parties! TKS is the perfect way for kids of all levels (from brand-new-beginners to highly advanced players) to learn to love learning, learn that they are unspeakably smart, and learn how to absolutely demolish their parents in chess! In this kid-centered classroom environment, we teach our kids every cool trick, strategy, opening, and tactic in chessdom and our kids soon learn to love and master chess and to masterfully control their classrooms, sports fields, and home lives as well!

Vendor Description: The Knight School is a nationwide, high-energy, beginner-welcome, chess program for kids. TKS is the most compelling, kid-centered chess party in America! We provide a revolutionary, kid-oriented approach to chess as our classes and coaches unapologetically put sportsmanship first, fun second, and chess prowess third.

NOTE: This class will form with a **Minimum of 6 students and a Maximum of 20 students.**

Imagineers in Gears/K-1st/14 Tuesday/3:15-4:15 by American Robotics Academy

Class Description: Let your imagination and ideas take you wherever you want to go! You will learn engineering key concepts and fundamentals building with LEGO elements from the creative tool kit. Learning as we go numeracy, literacy and much more. Students will be challenged to use LEGO pieces to create a structure or setting using LEGO elements. Students will engage with hands-on experience including fun and problem-

solving activities and be encouraged to tell a story about their creations. Your student will be offered special pieces for their builds to complete their story. Students will learn to identify build pieces and their function required to build structures towards the next step into Robotics. This program offers

River Oaks Elementary Roadrunner Nest (ROE RN)

Enrichment Classes for Fall 2026

(Mon-Thur: August 31 – December 11)

STEM-STEAM curriculum as well diversity, self-esteem, social competency, collaboration and more. Concepts and core values are taught to prepare students for life challenges. This course is designed as an introduction to robotics where students will learn about the different lego elements and their functions, as well begin simple non-motorized builds. This is a beginners workshop where your student will not be required to read to follow instructions.

Vendor Description: American Robotics Academy aims to excite, inspire and motivate students in grades K-5 about the importance of engineering, robotics and coding technology. The curriculum is grade level based. Please note: Some workshops require a student to read the instructions. Upon registering your child, please be prepared to provide the following required information: STUDENT NAME, GRADE, CLASSROOM TEACHER, ALL PARENT NAMES AND CONTACT INFORMATION, ALLERGIES, ANY PERSONS AUTHORIZED TO PICK UP (INCLUDING CONTACT INFORMATION), AND IF YOUR CHILD ATTENDS YOUR CAMPUS EXTENDED DAY/AFTER SCHOOL PROGRAM. NASA Academy of Space Exploration/K-2nd/14 Tuesday/3:15-4:15 by Mad Science

Class Description: NASA: Academy of Space Exploration, designed in collaboration with NASA, is one of the main themes this semester. Train to become a future space explorer, and get set on a trajectory from our Earth's atmosphere to the outer reaches of our solar system! This hands-on program will bring you closer to the stars, planets, comets, and more. Learn about living in space, get away from gravity, look for space phenomena, and participate in a rocket launch! The adventure doesn't stop there—this program also integrates dynamic STEM topics such as energy bursts, electrical connectivity, motion and movement, super-powered energy sources, and radical robotics. Together, these experiences create an engaging pathway into space science, engineering, and innovation.

Vendor Description: With over 30 years of experience, we cultivate self-driven learners during the critical early years when curiosity is at its peak. Our two-year program blends hands-on experiments with engaging demonstrations, turning curiosity into lasting habits of exploration. Students don't just watch—they actively explore science and engineering concepts, building confidence and a lifelong love of learning. Our TEKS-aligned curriculum supports STAAR readiness, featuring a new hands-on class each week with 4–8 experiments per session using real-world scientific instruments. We encourage inquiry and treat mistakes as valuable discoveries, helping students grow in confidence. Every class includes a themed take-home project, ensuring the spark of discovery follows them home!

Mad Science of Houston has been teaching children to love to learn science since 1995

NOTE: This class will form with a Minimum of 10 students and a Maximum of 20 students.

Electronics & Engineering - Build • Wire • Code/2nd-5th/14 Tuesday/3:15-4:15 by Mad Science

Class Description: In this hands-on program, students explore electronics, coding, and robotics through engaging Arduino-based projects. They learn how hardware and software work together by building interactive systems using sensors, motors, electronic components, and microcontrollers. Students begin by building and programming modular robotic systems, then advance to create projects such as Flashing LED projects, Radar System, Automated Gates, Digital Displays, Moving Machines, and Robot Vehicles while developing programming, creativity, troubleshooting, critical thinking, and engineering skills. As AI automates more of the coding process, the ability to integrate hardware and software to solve real-world problems is becoming even more valuable. These hands-on engineering and problem-solving skills are ones AI cannot replace. By the end of the semester, every student takes home a robot or invention they designed, built, and programmed themselves.

Code Critters/1st-2nd/14 Wednesday/3:15-4:15 by American Robotics Academy

Class Description: Let's meet INDI! This workshop is all about revving up STEAM learning with the INDI robot. This workshop is entry level robot that is designed to introduce early learners to the fundamentals of computational thinking, STEAM, and computer science principles. INDI encourages open ended, imaginative play-based learning with real-life scenarios as learners build custom mazes, solve puzzles, and drive.

As students learn pattern recognition, creating and using algorithms, decomposition, and understanding abstractions they will become better thinkers and problem solvers. Learning stages your child will be introduced to using INDI. • Exploration – All learners will benefit to freely explore something new in every lesson. • Skill Building – Skill building highlights the skills used during a specific activity. • Challenge- Learners will apply their skills and ideas to successfully complete a challenge.

Vendor Description: American Robotics Academy aims to excite, inspire and motivate students in grades K-5 about the importance of engineering, robotics and coding technology. The curriculum is grade level based. Please note: Some workshops require a student to read the instructions. Upon registering your child, please be prepared to provide the following required information: STUDENT NAME, GRADE, CLASSROOM TEACHER, ALL PARENT NAMES AND CONTACT INFORMATION, ALLERGIES, ANY PERSONS AUTHORIZED TO PICK UP (INCLUDING CONTACT INFORMATION), AND IF YOUR CHILD ATTENDS YOUR CAMPUS EXTENDED DAY/AFTER SCHOOL PROGRAM. Voice Choir/2nd-5th/14 Wednesday/3:15-4:15 by Hamp's Camp

Class Description: Let your child discover the joy of singing in a supportive, fun, and creative environment! The lessons are designed to help young singers explore their voices, build confidence, and develop healthy vocal habits through age-appropriate songs and engaging musical activities. Students will learn: Proper breathing and posture for singing, Pitch-matching and vocal tone development,

Basic music theory (rhythm, melody, dynamics), Song interpretation and expressive performance, and Ensemble singing, listening, and teamwork. Each class includes vocal warm-ups, movement, ear training, and group singing. A diverse repertoire—including folk songs, seasonal pieces, musical theatre, and popular tunes—keeps students inspired and excited to sing. This class nurtures each child's unique voice while fostering community, creativity, and a lifelong appreciation for music. No prior experience required—just a love for music and a willingness to try!

Vendor Description: Welcome to Hamp's Camp Inc After-School Sports Program, where we believe in fostering not just athletic abilities but also teamwork, discipline, and personal growth in children. Our program offers a diverse range of sports activities designed to keep kids active, engaged, and having fun during the after school hours. "Our mission is to provide a safe, inclusive, and supportive after-school environment where children can engage in various sports activities. We aim to promote physical fitness, develop fundamental sports and performing skills, and foster confidence, teamwork and

THURSDAY

Chess/K-5th/14 Thursday/3:15-4:15 by The Knight School

Class Description: The Knight School has finally perfected the chess class and is sweeping the nation with this hilarious, kid-focused, amazingly cool approach to a big, fun, and genuinely thrilling experience. Grandpa's boring chess class has now evolved into The Knight School's chess parties! TKS is the perfect way for kids of all levels (from brand-new-beginners to highly advanced players) to learn to love learning, learn that they are unspeakably smart, and learn how to absolutely demolish their parents in chess! In this kid-centered classroom environment, we teach our kids every cool trick, strategy, opening, and tactic in chessdom and our kids soon learn to love and master chess and to masterfully control their classrooms, sports fields, and home lives as well!

Vendor Description: The Knight School is a nationwide, high-energy, beginner-welcome, chess program for kids. TKS is the most compelling, kid-centered chess party in America! We provide a revolutionary, kid-oriented approach to chess as our classes and coaches unapologetically put sportsmanship first, fun second, and chess prowess third.

NOTE: This class will form with a Minimum of 6 students and a Maximum of 20 students.

NASA Academy of Space Exploration/3rd-5th/14 Thursday/3:15-4:15 by Mad Science

Class Description: NASA: Academy of Space Exploration, designed in collaboration with NASA, is one of the main themes this semester. Train to become a future space explorer, and get set on a trajectory from our Earth's atmosphere to the outer reaches of our solar system! This hands-on program will bring you closer to the stars, planets, comets, and more. Learn about living in space, get away from gravity, look for space phenomena, and participate in a rocket launch! The adventure doesn't stop there—this program also integrates dynamic STEM topics such as energy bursts, electrical connectivity, motion and movement, super-powered energy sources, and radical robotics. Together, these experiences create an engaging pathway into space science, engineering, and innovation.

Vendor Description: With over 30 years of experience, we cultivate self-driven learners during the critical early years when curiosity is at its peak. Our two-year program blends hands-on experiments with engaging demonstrations, turning curiosity into lasting habits of exploration. Students don't just watch—they actively explore science and engineering concepts, building confidence and a lifelong love of learning. Our TEKS-aligned curriculum supports STAAR readiness, featuring a new hands-on class each week with 4–8 experiments per session using real-world scientific instruments. We encourage inquiry and treat mistakes as valuable discoveries, helping students grow in confidence. Every class includes a themed take-home project, ensuring the spark of discovery follows them home!

Mad Science of Houston has been teaching children to love to learn science since 1995

NOTE: This class will form with a Minimum of 10 students and a Maximum of 20 students.

Refund Policy: A 15% processing fee will be applied to all refund requests prior to the 2nd class starting. Withdrawals done after the start of the second class is not subject to a refund. Refunds will not be issued for classes missed by the child.

REV SQUAD/3rd-5th/14 Thursday/3:15-4:15 by American Robotics Academy

Class Description: In this uniquely challenging class, students are given a completed model and must figure out how to rebuild it from scratch—just like real engineers troubleshooting in the field. This reverse-engineering process strengthens visual analysis, memory, collaboration, and attention to detail. Students learn that engineering requires experimentation, patience, and clever strategy. The experience builds confidence and prepares students for more advanced robotics programs.

Vendor Description: American Robotics Academy aims to excite, inspire and motivate students in grades K-5 about the importance of engineering, robotics and coding technology. The curriculum is grade level based. Please note: Some workshops require a student to read the instructions. Upon registering your child, please be prepared to provide the following required information: STUDENT NAME, GRADE, CLASSROOM TEACHER, ALL PARENT NAMES AND CONTACT INFORMATION, ALLERGIES, ANY PERSONS AUTHORIZED TO PICK UP (INCLUDING CONTACT INFORMATION), AND IF YOUR CHILD ATTENDS YOUR CAMPUS EXTENDED DAY/AFTER SCHOOL PROGRAM.

NOTE: This class will form with a Minimum of 6 students and a Maximum of 16 students.

A 15% processing fee will be applied to all refunds prior to the second class starting. Withdrawals done after the start of the second class are not subject to a refund. Refunds are not issued for student absences.
