- conducting routine maintenance of automated external defibrillators, including appropriate placement in accordance with the statewide standards;
- designating school district personnel for training in the use of automated external defibrillators and cardiopulmonary resuscitation during a cardiac emergency;

EE - Food Services Management

Current BOE Policy

(See EBBD)

A supervisor may be hired by the board to oversee the district's food service program.

Sanitation Inspections

The building principal shall inspect each lunchroom to ensure that proper sanitation procedures are being followed.

Records

The supervisor shall be responsible for keeping food service records required by state and federal laws and regulations.

The supervisor shall be under the direct supervision of the superintendent and shall have control over all aspects of the district's food service programs subject to board policy, rules and state and federal regulations.

Meal Prices

Meal prices shall be determined by the board.

Free and Reduced Price Meals

Parents or guardians of students attending schools participating in federal school meal programs must be informed of the availability of reimbursable school meals and provided with information about eligibility and the process for applying for free or reduced price meals on or before the start of school each year.

Unpaid Meal Charges

There will be no charge account established for students paying full or reduced price for meals provided by the district. Therefore, once the student's lunch account has been depleted below the purchase price of the student's portion of any meal or a la carte food item, the student will have insufficient funds to obtain additional school meals or a la carte food items until additional funds have been provided for this purpose.

Any student failing to keep his/her account solvent as required by the district shall not be allowed to charge further meals or to purchase food items that would result in a negative food account balance. However, such students will be allowed to purchase a meal or food item if the student pays for the meal or item when it is received. Students who have insufficient funds to purchase additional food in their account and cannot pay out of pocket for a meal will be provided an alternate meal, which may consist of a peanut butter, peanut butter alternative, or cheese sandwich or cereal and milk.

A written low-balance reminder will be sent to the student's parent or guardian when the student's account balance falls below $5.00. In the event a student's meal account has insufficient funds to purchase additional food items, written communication with information on the free/reduced application for consideration will be sent to the parent or guardian requesting payment.

While it is not the district's policy to allow a student's lunch account to incur a negative balance, if the child qualifies for the free or reduced-price meals and a negative balance exists, the negative balance will require payment per federal guidelines. Parents or guardians may send lunches with the student from home, but the negative balance will require payment.

If payment of any negative balance is not received within ten working days, the debt will be turned over to the superintendent or superintendent's designee for collection per board policy DP. If the debt is not paid within twenty days of mailing the final notice of the negative account balance under policy DP, it shall be considered bad debt for the purposes of federal law concerning unpaid meal charges.

Balances will be maintained in Mosaic, Power School, and www.MySchoolBucks.com. Payments for school meals may be made at the school or online at www.myschoolbucks.com. Students, parents, or guardians of students are encouraged to prepay meal costs.

The district will provide a copy of account balances and the meal charge policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer.

The terms of this policy will be communicated to all district staff responsible for enforcing any aspect of the policy. Records of how and when it is communicated to households and staff will be retained

IF - Textbooks, Instructional Materials and Media Centers

Current BOE Policy

(See IKD and KN)

All textbooks, instructional materials and the selection criteria for district media center materials shall be subject to board approval.

Textbooks and instructional materials shall support the district's instructional program. Media center materials shall support and supplement the curriculum, promote wise use of leisure time, develop literary discrimination and appreciation, and encourage students to become productive citizens.

Selection Criteria: Textbooks and Instructional Materials

Textbooks and instructional materials shall provide:

An effective education for all students;

Factual knowledge, literary appreciation, aesthetic values, and ethical standards;

Practice for students to develop abilities in critical thinking, communication, mathematics, and science skill;

Information which helps students develop an appreciation of American cultural, ethnic and racial diversity, and balanced views concerning international, national, state, and local issues and problems; and

Sufficient flexibility for meeting the special needs of individuals and groups.

The superintendent shall develop selection procedures which meet the above criteria, which shall include a review of available material by appropriate staff members.

Selection Criteria: Media Center Materials

Materials shall be chosen for accuracy, artistic quality, format, and authoritativeness.

Materials shall be chosen on various reading levels presenting different points of view, including current issues.

Books and other media materials shall be evaluated before purchase, either through direct examination or by using reputable, unbiased, professionally prepared selection tools.

The media center(s) shall obtain, process, and circulate materials and equipment and provide references and other services to students and faculty. Media specialists shall work toward providing resources so that students have an opportunity to achieve high levels of performance.

Collection Development

The media collection shall be developed systematically, be well balanced in coverage of subjects, and include various types of materials and diverse content in multiple formats.

The collection shall reflect, enhance, and complement the broad interests represented in the curriculum. The collection should be large enough to allow materials to be placed in classrooms for extended periods of time.

Challenges of Materials

Any student, parent, or legal guardian of a student currently enrolled in the district having a complaint about textbooks, media center, or other instructional materials shall meet with the teacher, media specialist, or principal. If the concern is addressed to a teacher or media specialist, they shall report the matter to the principal. If the matter cannot be resolved, the principal shall notify the superintendent and ask the complainant to complete a request for review form which is available through building principals or at the district office. After receiving the completed form, the superintendent shall review and consider the request.

If the issue outlined in the request is not resolved after review by the superintendent, the requestor may seek review by the board. If the board chooses to consider the request, it shall forward all appropriate written materials to a review committee.

Composition of Review Committee

When a review committee is established to handle requests for review concerning textbooks, media center, or instructional materials, the review committee shall be composed of:

The building principal, library media specialist, two subject area specialists, two community members, and one student. If the request for review proposes that the material is inappropriate for minors, the student representative may be left off the committee. The superintendent shall be responsible for appointing review committee members, unless otherwise determined by the board on a case-by-case basis.

Purview of Review Committee

The review committee shall examine and evaluate the material as a whole; consider the district's policy, procedures, and philosophy for selection of textbook, instruction materials, and media center materials; weigh strengths and weaknesses; and form opinions based upon the selection criteria.

Written Report

Within 30 days of receiving access to the challenged materials, the review committee shall review the material and prepare a written report containing conclusions and recommendations for the board of education.

If the board receives simultaneous challenges of multiple material or if circumstances render the 30-day timeline impracticable, the board may extend the committee's deadline to complete its review.

No reviews will be conducted during summer break or when school is not in session for one week or longer. The timeline for any review shall be tolled during such breaks.

Board Review and Action

The board shall review the recommendation of the review committee within 30 days of receipt thereof and may accept the review committee's recommendation, reject the review committee's recommendation, or make its own determination regarding the challenged book or material.

The decision of the board is final.

Removing Challenged Materials

Challenged materials may be removed from use during the review period at the discretion of the superintendent.

Impact of Simultaneous Requests

If more than one request for review is received simultaneously, or, if one or more requests for review is received while another review is pending, timelines established in this policy may be extended by the superintendent or the board to allow the requests to be processed in turn. When more than one request for review is received on the same book or material, such requests may be consolidated to reduce redundancy in review at any stage of this process.

JGFGA - Administration of Emergency Opioid Antagonists

JGFGA - Administration of Emergency Opioid Antagonists

Recommended KASB Policy Changes

Administration of Emergency Opioid Antagonists **JGFGA**

Kansas law creates standards governing the use and administration of emergency opioid antagonists approved by the U.S. Food and Drug Administration ("FDA") to inhibit the effects of opioids and for the treatment of an opioid overdose. Any first responder or school nurse is authorized to possess, store, distribute, and administer emergency opioid antagonists as clinically indicated, provided that all personnel with access to emergency opioid antagonists are trained in proper protocol.

Similarly, Kansas law allows a patient or bystander (meaning a family member, friend, caregiver, or other person in a position to assist a person who the bystander believes to be experiencing an opioid overdose) to acquire and utilize emergency opioid antagonists.

Therefore, to prioritize student health and safety in its schools, programs, and activities, the board authorizes the district to obtain, store, and administer naloxone, Narcan, and/or other opioid antagonists for emergency use in its schools. The school nurse or other properly trained staff member may administer such medication in emergency situations. Opioid antagonists may be available during the regularly scheduled school day. They may be available at other times at the discretion of the superintendent.

The board establishes the following rules governing the utilization and administration of emergency opioid antagonists, such as, but not necessarily limited to, naloxone and Narcan, by members of district staff.

Training

If obtaining the emergency opioid antagonist through a pharmacy, the providing pharmacy of the emergency opioid antagonist (hereafter "the product") shall provide written education and training materials to the individual to whom the product is dispensed. First Aid for Opioid Overdose must be obtained by each school nurse and other staff members designated by the superintendent to respond to potential opioid overdose situations. In addition, all district staff members with access to emergency opioid antagonists shall be trained, at a minimum, on the following:

- Techniques to recognize signs of an opioid overdose;
- Standards and procedures to store, distribute, and administer an emergency opioid antagonist;
- Emergency follow-up procedures, including the requirement to summon emergency ambulance services either immediately before or immediately after administering an emergency opioid antagonist to a patient; and
- Inventory requirements and reporting any administration of an emergency opioid antagonist to the school nurse or another healthcare provider.

District staff members personally acquiring such products for use as a patient or bystander are encouraged to inform the school nurse or the superintendent's designee, so that they may be trained in proper protocol and included in the school or district's crisis response plan regarding potential opioid overdose.

Procurement of the Product

The school nurse or other staff member(s) designated by the superintendent will be responsible for the procurement of the product.

Storage

The following storage protocols shall be followed:

- The product will be clearly marked and stored in an accessible place at the discretion of the school nurse or the superintendent's designee.
- The product will be stored in accordance with the manufacturer's instructions to avoid extreme cold, heat, and direct sunlight.
- Inspection of the product shall be conducted at least quarterly.
- The individual responsible for the product's safekeeping shall check, document, and track the expiration date found on the box and replace the product once it has expired.

Use of the Product

In case of a suspected opioid overdose, the school nurse, designee, or other individual shall follow the protocols outlined in the training or product instructions.

Follow-up

- After administration of the product, the school nurse, or other designated staff, will report appropriate information to emergency services, parents (guardians), central office personnel, and if determined necessary, the patient will be transported to a hospital.
- The school nurse or other designated staff will complete the designated incident report and file the report with the school nurse or district office, whichever is applicable.

Protection from Liability

Any patient, bystander, school nurse, a first responder, or technician operating under a first responder agency, who, in good faith and with reasonable care, receives and administers an emergency opioid antagonist pursuant to this policy to a person experiencing a suspected opioid overdose shall not, by an act or omission, be subject to civil liability or criminal prosecution, unless personal injury results from the gross negligence or willful or wanton misconduct in the administration of the emergency opioid antagonist.

Disposal of District Property **KK**

(See DFM)

Except when disposing of a ~~school district~~ building as defined herein, the board may dispose of district property in a manner the board deems to be in the district's best interest. Whenever such excess district property is to be sold at auction, all sales shall be to the highest bidder. No credit shall be extended.

When disposing of any school district property, neither the board nor its agent shall refuse to sell, lease, or convey any interest in a building or property to a prospective buyer or lessee solely because the prospective buyer or lessee may use or intends to use the building or property as a nonpublic school building.

Disposal of a School District Building

For the purposes of this policy, terms have the following meanings.

- "Building" means any building that was used in any prior school year as an attendance center for students enrolled in kindergarten or any of the grades one through 12.
- "State agency" means any state agency, department, authority, institution, division, bureau, or other state governmental entity.

Within 30 days after the board of education adopts a resolution to dispose of a ~~school district~~ building, the board shall submit written notice of its intention to dispose of such building to the legislature. Such notice shall be filed with the chief clerk of the house of representatives and the secretary of the senate and shall contain the following:

- A description of the school district's use of such building immediately prior to the decision to dispose of such building;
- the reason for such building's disuse and the decision to dispose of such building;
- the legal description of the real property that is to be disposed; and
- a copy of the resolution adopted by the board of education.

Upon receipt of the notice, the legislature may adopt a concurrent resolution stating the legislature's intention that the state acquire the school district building in the following manner. Such concurrent resolution shall include:

- The name of the school district that owns such building;
- the information contained in the written notice as outlined herein; and
- the state agency that intends to acquire such building and the intended use of such building upon acquisition.

If the notice is received by the legislature during a regular legislative session, the legislature shall have 45 days to adopt such a concurrent resolution ~~as outlined below~~.

If the notice is received when the legislature is not in regular session, then, not more than 45 days after the notice is received by the legislature, the legislative coordinating council may deny the legislative option for the state to acquire the building. If the legislative coordinating council denies this option, the district may proceed with disposing of the building in accordance with Kansas law. If the legislative coordinating council does not deny the option for the state to acquire the building within the 45-day period, then the legislature shall have 45 days from the commencement of the next regular session to adopt a concurrent resolution as outlined ~~below~~ herein.

~~If the legislature does not adopt a concurrent resolution as outlined below within the 45-day period, then the school district may proceed with the disposition of such school district building in accordance with state law.~~

~~Such concurrent resolution shall include:~~

- ~~The name of the school district that owns such building;~~
- ~~the information contained in the written notice as outlined above; and~~
- ~~the state agency that intends to acquire such building and the intended use of such building upon acquisition.~~

Upon adoption of a concurrent resolution, the state agency named in such resolution shall have 180 days to complete the acquisition of such ~~school district~~ building and take title to the real property. Upon request of the state agency acquiring the ~~school district~~ building, the legislative coordinating council may extend the 180-day period for a period of not more than 60 days.

The board shall not sell, gift, lease or otherwise convey ~~such~~ the building or any of the real property described in the written notice or take any action or refrain from taking any action that would diminish the value of such property during the 180-day period or any extension thereof.

If the legislature does not adopt a concurrent resolution as described herein within the 45-day period or if the state agency does not take title to the property within the 180-day period or any extension thereof, ~~then~~ the school district may proceed with disposition of such ~~school district building~~ property in such manner and upon such terms and conditions the board deems to be in the best interest of the district ~~accordance with state law and any written agreements entered into between such state agency and the school district~~. Conveyances of buildings and real property described on any legislative notice described herein shall be executed by the president of the board and attested to by the clerk.

~~For purposes of this policy, the term "state agency" means any state agency, department, authority, institution, division, bureau, or other state governmental entity.~~

School district buildings not meeting the definition of "building" as defined herein, may be disposed of in any manner deemed to be in the best interest of the district by the board, without need for legislative notice under this policy.
